CARE & MAINTENANCE

ALUMINUM

CLEANING

- Clean with a damp cloth wrung in a solution of water and neutral detergent.
- Avoid using scouring cream or scouring pads as they may scratch the surface.

CHROME

CLEANING

- Clean with a damp cloth wrung in a solution of water and neutral detergent.
- Avoid using scouring cream or scouring pads as they may scratch the surface.

GLASS

CARE

- Be careful with sharp objects as they may scratch the surface.

CLEANING

- Table tops made of glass should be wiped with a clean, dry cloth.
- To remove grease (fingerprints, etc.), use a glass cleanser.
- Excess water can be removed with a dry cloth. You can then dry polish the glass with a micro-fiber cloth.
- Avoid cleaning with ammonia.
- Never use abrasive cleaners or sharp-edged cleaning tools.

GRANITE

Granite distinguishes itself by being resistant to scratches and heat. Each piece of granite is unique with natural variations in the pattern.

CARE

- For maintenance, use care products specially developed for granite or use a damp cloth wrung in a mix of water and mild soap or soap flakes. This will form a light protective film on the surface.

CLEANING

- We recommend cleaning with a damp cloth wrung in a mix of water and mild soap or soap flakes. Granite tolerates most cleaning products.

LACQUERED ABS

CLEANING

- Clean with soft damp cloth or nano-cloth.

LAMINATE

CARE

- Never place hot items directly on the laminate.

CLEANING

- Clean with a damp cloth wrung in a solution of water and all-purpose cleaner or household ammonia. Avoid using abrasive cleaners.
- Remove soap residue immediately afterwards, using a clean, dry cloth.

Stains can be removed gently with a clean, damp cloth or a nano-sponge wrung in warm water with 1 part vinegar to 10 parts water.

LAMP FOIL

CLEANING

- Clean with a duster, a micro-fiber cloth or by carefully using a vacuum cleaner with a soft brush attachment.

LEATHER

Normann Copenhagen uses high-quality natural leather from Sørensen Leather. The leather is pleasant to touch, with a uniform grain pattern spanning over the entire hide. If you look after the leather, you can preserve its natural beauty and make it look even more luscious over time.

CARE

- Avoid placing the leather in direct sunlight or extreme heat.
- Avoid soaking the leather or any contact with sharp objects.
- Absorb any spills immediately, using a clean, dry cloth.
- Dust and clean regularly according to instructions below.

CLEANING

- Dust using a vacuum cleaner with a soft brush.
- Clean using the foam from soap flakes. Use a 1/2 deciliter of soap flakes to 1 liter of water. Whip the soap flakes into hot water. When the water becomes room temperature, the foam must be applied all over the leather with a soft cloth. Only use the foam and avoid soaking the leather. When the leather is dry, polish it with a soft, dry cotton cloth.
- Never use detergents, ammonia, oils, polish, varnish, etc.

LINOLEUM

Linoleum is a durable material made of a combination of linseed oil, resin, limestone, saw dust, and natural pigments. It is known to have anti-bacterial and self-healing properties. We use Forbo's furniture linoleum, which is comfortable to touch and has a beautiful matte finish.

CARE

- We recommend using coasters under damp or colored items to avoid permanent stains.
- Never place hot items directly on the linoleum table top.
- Use linoleum care regularly to maintain the surface.
- Wipe any spills as soon as they occur to avoid them from soaking in.

CLEANING

- Only use a PH-neutral cleaning product on linoleum as alkaline detergents may deplete the linoleum.
- Clean with a damp cloth wrung in a solution of water and a detergent made especially for linoleum. Remove soap residue immediately afterwards, using a clean, dry cloth.
- Stains can be removed carefully using white spirit (minerals turpentine) or a damp nano-sponge with warm water or a linoleum product. Please note that the nano-sponge should not be used when dry.

MARBLE

Marble has a fine hard surface with a beautiful natural pattern. Each piece of stone is unique in color and composition.

CARE

- Wipe any spills as soon as they occur to avoid them from soaking in.
- Marble table tops can be maintained with mild soap or soap flakes, which forms a light protective film on the surface. Use mild soap or soap flakes over time to make the surface more resistant to spots and give it a silky matte look.

CLEANING

- Clean using a cleaning soap for all types of natural stone. Avoid the use of all-purpose cleaners and other degreasing detergents as well as substances containing acids.

PAPER CORD

CARE

- Avoid getting the paper cord wet as the color may rub off.

CLEANING

- Clean with a clean dry cloth.

PLASTIC – POLYPROPYLENE (PP)
