SENAB

Färgmarkeringar och/eller symboler för hållbara alternativ i prislistan:

Mörkgrön markering eller symbol

Miljömärkt produkt – Möbler där hela den sammansatta varan har en typ 1 miljömärkning enligt ISO 14024 med Svanen, Möbelfakta, EU Ecolabel eller annan likvärdig märkning.

Ljusgrön markering eller symbol

Hållbarhetsmärkt produkt eller beståndsdel – Möbler där hela eller delar av den sammansatta varan är hållbarhetsmärkt, exempelvis med FSC, EU Ecolabel eller OEKO-TEX®. Leverantören ska kunna ge mer detaljerad information om vilka delar eller variationer som är hållbarhetsmärka vid begäran.

Orange markering eller symbol

Klimatberäknad produkt – Produkt med dokumenterad miljövarudeklaration (EPD) enligt ISO 14025.

Lila markering eller symbol

Produkt med återvunnet eller förnybart material (enligt definitionerna i ISO 14021). Leverantören ska kunna ge information om andel (%) återvunnet och/eller förnybart (biobaserat) vid begäran. Märkning av återvinningsbart material utgår.

Blå markering eller symbol

Demonterbar produkt – Produkt som är demonterbar till olika komponenter och beståndsdelar som i första hand möjliggör återbruk och i andra hand materialåtervinning när produkten nått sin fulla livslängd. Produkten ska vara designad för renovering, det vill säga att det ska vara enkelt att reparera och byta ut moduler, komponenter och beståndsdelar som slits över tid. Exempelvis ska ytskikt, som bordsskivor, textil och stoppning kunna tas isär, avlägsnas och ersättas med hjälp av vanligt förekommande manuella verktyg, ej specialverktyg. Enklare reparationer och utbytesarbeten ska kunna utföras av en lekman. Om det krävs fackmanakunskap för mer avancerade arbeten ska det framgå av anvisningarna som leverantören ska kunna ge vid begäran. Anvisningarna ska innehålla en sprängskiss, steg för steg beskrivning inklusive vilka verktyg som krävs samt hur möbelns ingående delar bör källsorteras.

Eat together
Work together
Breathe together
Experience together

Engaging interaction is a key ingredient to a unifying culture, increased innovation and improved work environment.

Your interactions are shaped by the spaces where you eat, work, connect and experience with others.

Bull Advokatfirma - photo: Niklas Hansson

For the past 60 years Fora Form have created spaces for interaction through the strategic use of design. Our products are designed to enable participants to interact based on area intention. Today's arenas for interaction have radically changed in 60 years, and Fora Form have helped shape this journey. While some spaces are designed with dialogue or creativity in mind, other spaces have reflection as the intended purpose. The meeting room design can be just as focused on a monitor as people collaborating. Some need a big auditorium one day, and the annual office party the next day. Changing the focus of these meetings also alters furniture's functional requirements, this is a job we take very seriously – so you can interact effortlessly.

Fora Form aim to have Ecolabel certificate on all standard fabrics. Our products that are environmentally certified by the Nordic Swan need the Ecolabel certificate to provide the Nordic swan certificate. For leather, we recommend Sørensen Dunes Leather to preserve the Nordic Ecolabel. These fabrics/leathers are marked with an S.

Some products are offered in a limited selection as standard, this is stated under each model.

All marked grey in the price list can be delivered in 2 - 3 weeks. Lead time may deviate due to production capacity, order size or fabric stock situation.

* Not supplied on Con and Up

Fora Form Menu

LEAD TIME:
4-7 WORK WEEKS

Fora Form offers lead time 4-7 weeks for the greater part of the collection. Lead time may deviate due to production capacity, order size or fabric stock situation.

Finish of wooden parts, is stated under each model.

Metal parts: All products manufactured with chrome/polished aluminium, grey metallic, black or white epoxy coated. Varieties are specified under each model in the price list.

Fora Form offers NCS/RAL coated metal parts on majority of our collection. This is commented under each model.

Some designs are offered in five standard colours in Jotun Sahara, a structured epoxy coating. This is commented under each model.

Fabrics: We recommend our standard fabrics. Other fabrics can be delivered on request. A list of suggested fabrics is found on page 7. For orders

placed with COM textiles, price category A is applicable. New fabrics must be tested before approval.

Leather from: Elmo, Nevotex, Sørensen.

Contrast seam: Fora Form offer contrast seam on selected products in the colours; white (NCS S 0500-N), light grey (NSC S 2502-R), grey (NCS S 5502-B), brown NSC S 7010-Y70r and black (NSC S 9000-N). This is commented under each model. Other colours on request.

Zipper: we supply black zippers as standard, unless a contrast seam is used - then the zipper follows the colour of the seam. In addition, we offer zippers in light beige (8110), brown (8896) and gray (9685) as a menu. This must specify in the order.

Senso: drawings of the sofa system must always accompany the order. We recommend one colour for the backside of the sofa system. Please state preferred colours.

Fora Form Custom

CUSTOMIZED
ON REQUEST

Fora Form offers customized products on request.

Please note. Drawings on customized items must be approved by customer before manufacturing.

Custom coloured steel: Fora Form can offer NCS / RAL custom coloured steel, price on request.

For RAL K7 Classic colours: kr. 6 173 SEK per colour, per order. Senso has a separate pricing structure.

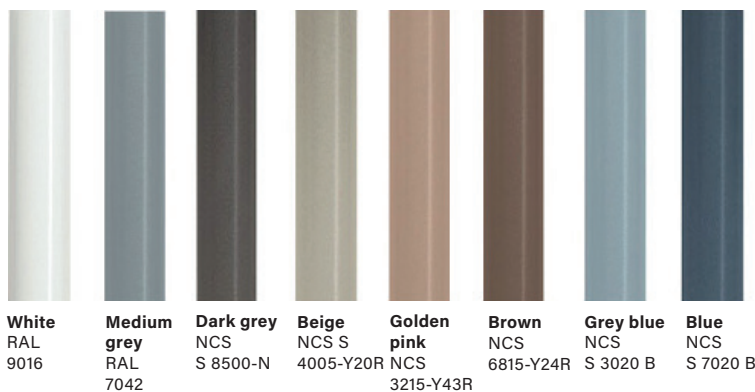

For all other colours from Sahara Collection: kr. 6 173 SEK per colour, per order. Colour codes must be specified when ordering.

Lead time: on request.

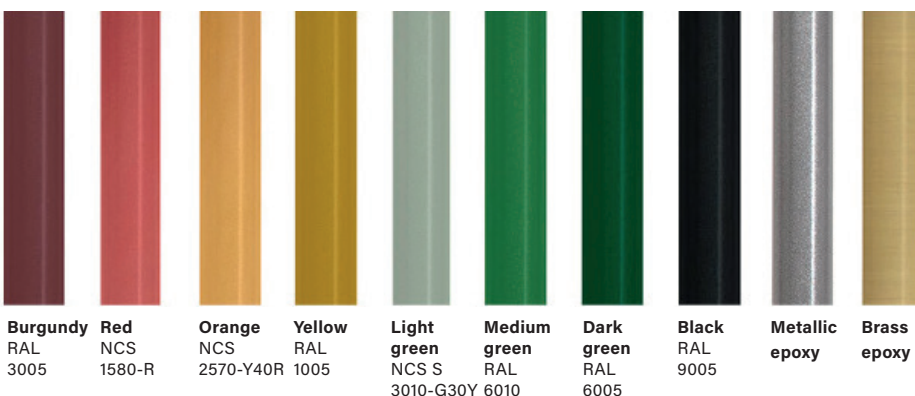

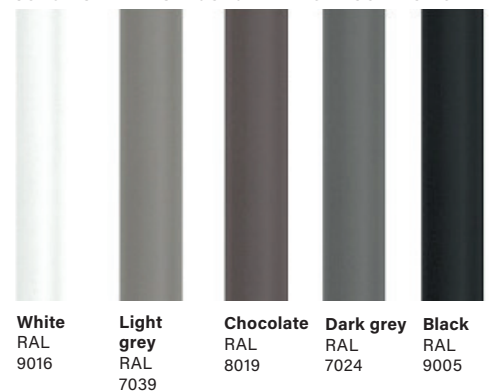

General conditions see page 2.

Stated delivery date is the date items are sent from the manufacturing unit.

MENU STEEL NCS / RAL-CODES:

NCS / RAL-CODES TO A SELECTION OF COLORS FROM JOTUN SAHARA STRUCTURED EPOXY COLLECTION:

Fora Form Standard

**LEAD TIME:
2-3 WORK WEEKS**

Fora Form has a selected set of sizes, geometries and designs as stocked standard.

All areas marked with grey are Fora Form Standard.

Table edges are commented under each model.

Table bases: varieties and heights are stated under each model.

Fora Form Menu

**LEAD TIME:
4-7 WORK WEEKS**

Veneer: Oak, natural ash or black stained ash. Pattern and color variations may occur on veneered table tops. Coated with UV-lacquer for longevity of life.

Laminate: Fora Form recommends HPL laminate from FORMICA Collection, elegant oak (F5374 NAT), natural oak (F1079 NAT), tula oak (F8589 PGN), black (F2253), light grey (F7927), dark grey (F7912), white (W1000) and white (F1040).

Linoleum: We can provide Forbo Desktop Linoleum 4166 charcoal, 4023 nero, 4132 ash, pebble 4175 and mushroom 4176. Other finishes on request at additional cost.

Solid oak: black stained oak, natural oak, white washed oak and smoked oak is supplied on L, R and S table.

Raw: raw table top is delivered on some of the Kvant tables. Raw table top is made of chipboard coated with UV-lacquer for protection. Table edge in natural oak. Color differences may occur.

Table edges: Using a non-standard edge, colour must be stated by customer. Surcharge for special color kr 4258,- SEK - per color / order.

Cable hatch and cable well is delivered on Kvant, Myk and Roma. Cable hatch lid same as table top finish.

Fora Form offers NCS/RAL coated metal parts on majority of our collection. This is commented under each model.

Fora Form Custom

**CUSTOMIZED
ON REQUEST**

Customized table tops: contact the sales department.

Please note: all drawings for customized tables must be approved by customer before manufacturing.

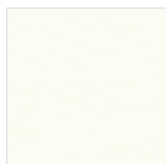

Custom coloured steel: Fora Form can offer NCS / RAL custom coloured steel, price on request. kr. 6 173 SEK per colour, per order. For all other colours from Sahara Collection: kr. 6 173 SEK per colour, per order. Colour codes must be specified when ordering.

On page 130 there is a selection with power dots and cables. These can be mounted on several of our tables. Please contact us for price, delivery and choice beyond those presented.

Other: We do not sell table bases separately. For renewal of table tops price on request.

Atrium

an extraordinary chair from Anderssen & Voll

The chair that is inherently uncomplicated - and complex at the same time. Atrium is the result after several years of development; a well-thought-out combination of design and functionality.

Atrium is created for big occasions and the small moments. Color the room and stack the chairs when the music is turned off. Take a breath and hang the chair on the table when the meal is over and the crumbs are the only ones sitting at the table. The possibilities are almost endless.

Feeling extra or ordinary?

Awards and certifications

City

The chair was designed in the 50's by
Øyvind Iversen for Fora Form

Wherever people meet

Eat together

Work together

Breathe together

Experience together

The classic design makes
this a chair that stays
relevant for eternity

The City chair is one of the foremost Norwegian design icons. Great design and fantastic comfort has made the chair a bestseller. Today the City chair is available in a wide variety of designs; veneer, plastic and with an upholstered cover. The auditorium, dining area, living room, meeting room, lecture halls, canteens, or kitchen are all popular arenas for this design classic.

The Clint chair has a wide range of different bases and back heights that fits the needs from a lounge setting to the boardroom. Thus, making the Clint chair an excellent alternative when looking for a cohesive design throughout a project.

Eat together

Work together

Breathe together

Experience together

Clint has a Scandinavian simplicity paired with excellent ergonomics, supplying comfort for long meetings.

Clint

The Clint chair won the Award for Design Excellence in 2010

Con is a versatile chair series for use in several areas of interaction, from formal meeting rooms to canteens.

Wherever people meet

Eat together
Work together
Breathe together
Experience together

Con

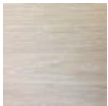

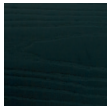

Con is designed with two overlapping shells joined by a distinct button, a theme influenced by Japanese armor. The layered design is the foundation for a series of chairs with countless combination options with shells in different designs, armrests and various bases.

Fjell

Fjell is designed by Lars Tornøe for Fora Form

Fjell is designed by Lars Tornøe. The chair design has a sleek outside and a soft inside, inspired by the mountain landscape on the west coast of Norway. The detailing tells a story of quality and a classically well-constructed softer formal meeting room chair.

The Fjell chair is available in a variety of fabrics and leather qualities, different bases, and different backrest heights. The practical split between the backrest and seat allows for easy maintenance.

Misto

A light pouf for impromptu meetings

With its simple, playful expression, Misto pouf can be used alone or compliment other elements. The practical carrying strap makes Misto easy to move and it addresses the need for extra seating. The Misto is designed as a full seat with high comfort and quality. The stainless steel base protects the fabric when cleaning.

A Norwegian design classic from the 60's Popcorn

Environmental requirements will be stressed and circular solutions will be demanded. It is therefore natural that the icon is manufactured in 100% recycled plastic. We have collaborated with stylist Kirsten Visdal to find three new colors for Popcorn; beige, brown and a golden rose. Clearly inspired by 1968 - but seen from today's trends.

Note

a modular shelving system designed by BergHindenes

An efficient and visually exciting shelving system with surprising angles, designed to define the transition from one area to another.

The stability is maintained by transversely placing the vertical dividers of the shelf. The effect this creates is an exciting pattern that ensures visibility from all angles.

Kove

By using the accessories, the space can be decorative from all angles by incorporating plants, books or decorative elements

The modular sofa system, Kove, is designed by Morten & Jonas. The design unifies comfort and function with the different modules. Combining modules, lengths and backrest creates new angles and directs interaction to best fit your space.

The sofa system can be upholstered in several different fabrics and lacquered to fit our specific project. The grid can double as not only a space divider, but by mounting planters, tables and shelf to the grid you add personality to the space.

Senso

The sofa system Senso
is designed by Anderssen & Voll for Fora Form

The Senso sofa system takes into account the acoustic challenges that one often has in office environments. The modular system stands out due to its space efficiency and its large number of modules that provides creative solutions. The height of the modules meets the requirements for universal design. The design of the base facilitates easy cleaning.

The idea behind Senso was to design a modular sofa system that is flexible, space efficient and facilitates informal meetings between people.

Info

For more than one fabric/colour per seat/back module, the highest price group is valid. In addition a cost per seat/back module will apply.

The Senso Frame can be fitted with back cushions on both sides.

Senso Frame can be combined with Senso Café with upholstered backrest.

We recommend structured epoxy on modules combined with Senso Frame.

Senso Café has a 10 mm cleaning gap between seat and backrest, unchanged outer dimensions.

Works on all modules except module with wooden table.

Senso counter height SH 65 cm.

Double electric European socket for ottoman with 3 m. black cord.

L and S table fixed, please state if assembly should be on left or right side of sofa.

L- table fixed with double European electric European socket and 2,5 m. black cord.

Senso 2- and 3-seats with high back can be delivered with a padded roof, price and delivery time on request.

Assembly Base and connecting of modules must be assembled.

Tind

The sofa family Tind
is designed by Lars Tornøe

TIND sofa is a sofa in a petite, enclosing format with round organic shapes. The sofa is designed for work, meetings and interaction. The contrast between the precise outside and soft inside creates the perfect nook. TIND is visually striking from all angles.

Up

The modular system
can easily be adapted to
different configurations.

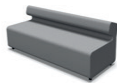

Up sofa system was designed by the trio Knudsen, Berg and Hindenes. The idea was to purposefully design a modular sofa system to facilitate communication.

The solid construction invites you to sit on the seatback and can be placed in the middle of the room. The backrest is perfectly tilted as arm and lumbar support which gives the user a friendly body language that invites dialogue. These two functions make the sofa great for breakout areas for informal communication.

The modular system can easily be adapted to different configurations in form, textures, and color combinations.

Clip table

- a functional stackable table system

The Clip table is designed by Komplot Design. The table is a functional stackable table system. In addition the tables light weight makes it easy to clean and re-furnish the room. Heavy lifting is avoided by pushing the tables on one another and transporting them on an associated trolley. The table system makes large meeting rooms, classrooms and canteens as well as smaller meeting room. With it's elegant simplistic shape and solid construction, the Clip table is a good choice for most chair series.

Fora Form is one of Norway's largest manufacturers of cinemas, retractable auditoriums and fixed seating. Punctual, functional and visually pleasing installations is important to us, giving the users of the arena the best possible experience.

Fora Form experience – wherever people meet

Eat together
Work together
Breathe together
Experience together

Fora Form is passionate about creating engaging forums. For the past 70 years Fora Form has used design strategically as part of creating interaction in the public environment, whether in schools, in companies or in auditoriums. Today we are one of Scandinavia's largest manufacturers of furniture for meeting spaces and forums.

We feel passionate about creating engaging interaction to a unifying culture, increased innovation and improved work environment. How are your interactions?

DESIGN AND DESIGNERS

Great design equals long life! Design, Quality and clever usage of materials makes sustainable furniture. Fora Form operates on a high-level regarding aesthetics, innovation and user benefits. We collaborate with selected designers who we know add to our collection products with optimum properties for the required situation.

ENVIRONMENT

Fora Forms pay close attention to our footprint, regarding our products and our Ørsta factory. We prove this promise through our certifications.

For the sake of nature and humanity, all of Fora Forms resources are traceable and we try to minimize the use of resources. We diligently work to reduce the amount of waste from our production and all waste is recycled in accordance with "Norsk Gjenvinning" and their requirements as Norway's leading recycling company.

Our suppliers are certified by the industry standards. Our goal is to possess EPD (Environmental Product Declaration) on our entire collection, enabling you with a detailed declaration of your products material content and the Co2 footprint. Our designs are manufactured to have a long life, and each product can be recycled at the end of a lifespan. Fora Form holds the Nordic Swan Eco label on specific products. All wood is FCS certified.

DESIGN AWARDS

Fora Form holds the title as Norway's leading design company, with 50 design awards both in Norway and internationally. This title commits to being innovative and still preserving the knowledge that we possess about engaging interaction.

MARITIME

Fora Form possesses key competence and certificates for supplying furniture to cruise and offshore. The majority of Fora Forms collection is MED-B certified, and we can also manufacture furniture according to the NORSOK standard. Please contact us for additional information.

QUALITY

Fora Form has a solid experience in making long lasting furniture. The functional value of a product is elongated by durable materials. These materials safeguard demanding public use. "Møbelfakta" is a neutral certificate that abide by EU testing standards for furniture that documents quality. A "Møbelfakta" certificate include requirements for strength, durability, emissions, material quality, stability, flammability, surface treatment and safety. Most Fora Form products are tested and approved by the Møbelfakta standard.

Fora Form is a ISO-certified company regarding quality management (ISO 9001), environmental management (ISO 14001) and occupational health (ISO 45001). Integrating environmental and occupational health standards to the quality management system holds Fora Form to systematically and continually improving pre-defined environment- and quality aspects. A total overview and updated certificates are available for downloading on our website foraform.com.
