## AROUND COFFEE TABLE

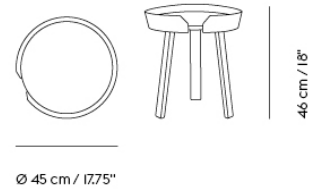

“I wanted to create a modernly timeless perspective on the archetypal Scandinavian coffee table, taking inspiration from memories of visiting my grandparents’ house as a child and being nervous about spilling something from their coffee table and onto the beautiful carpets. This gave me the idea for Around Coffee Table with its subtle veneer frame. The design has an at once subtle and significant presence through its geometric legs, characterful frame and friendly opening for a forward-thinking take on Scandinavian craftsmanship.”

— Thomas Bentzen

Designed by	Thomas Bentzen / 2011
Environment	Indoor
Country of Production	Latvia
Assembly Required	Yes
Description	The Around Coffee Table brings a new perspective to its typology through the characterful wooden veneer frame that runs along the edge of the table, echoing the ideas of Scandinavian design. With its round shape and multiple sizes, the Around Coffee Table can be used in a multitude of settings, on its own or in groups, in any living room, lounge setting, lobby area or hotel room.
Material	Oak & Ash versions are made from oak or ash plywood and solid oak or ash legs. Colored versions are made from MDF or ash plywood and solid ash legs. All versions are made using FSC™ (FSC-CO28824) certified wood.  The wood is carefully cut, bent, glued together and polished to create a unique table. The strong water-based lacquer surface protects the tables from wear and tear of everyday use.
Cleaning & Care	Clean the table with a damp cloth. If necessary only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away. Treat the surface with a melamine sponge, available in hardware stores, to reduce minor scratches.

## BASE TABLE SERIES

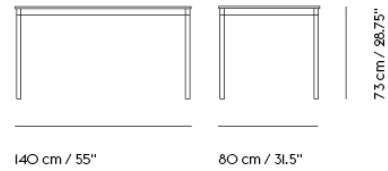

"I wanted the table to have its own character but not be imposing. The design aim was to reduce the table to its archetypal form. The functional simplicity of Base is supported by behind-the-scenes technology to create a slim, lightweight and strong table. At the same time, Base is friendly and welcoming in the way it looks."

— Mika Tolvanen

Designed by	Mika Tolvanen / 2014
Environment	Indoor
Country of Production	Denmark

Description	The Base Table Series references the heritage of Scandinavian design through its simple frame and subtle details. With its design harking back to the essence of a table, the Base Table Series features a veneer edge for a touch of Scandinavian materiality, paired with the elegant shapes of its table top and frame. Use the design in any home, workplace, educational institution or hospitality space for notes of Scandinavian simplicity.
Material	Frame in powder coated aluminum with legs and stretcher in aluminum or steel for high tables. Bases available in Black or White. Castors with brakes available in Black or White matching the base color. Table top in plywood with either laminate, linoleum or lacquered oak veneer surface with plywood edge or chipboard with laminate surface and ABS edges.
Cleaning & Care	Clean the table with a damp cloth. If necessary use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquids, grease etc. should be removed straight away. For linoleum versions, linoleum care is recommended for optimum saturation of the natural material 2-3 times a year. It is recommended to clean linoleum versions with a damp cloth and a pH neutral cleaner and wipe dry to remove any residues.
Spare Parts	Tables with two or four adjustable feet screws are made-to-order for all table sizes
Made-To-Order	Non-standard size tables are made to order with maximum width of 120 cm / 47.2" and minimum width of 50 cm / 19.7". Max. length (without legs) of 250 cm / 98.4" and min. length of 70 cm / 27.6". For tables longer than 250cm, additional leg support is needed; the top will be split into 2 parts and additional legs added. Laminate with ABS or plywood edge in Black or White. Linoleum with plywood edge. Our Cable Management Solution can be added to the Base Table.

## COMPILE SHELVING SYSTEM

"Storage is important because it is so universal: everybody needs good solutions. The inspiration for the Compile Shelving System was indeed the everyday storage situation. The design, with its logical construction, parallels to a certain degree an unpretentious Scandinavian lifestyle—one shelf represents one building unit while the length of the tube defines the shelf height. In this simple way one can assemble practical formations that fit individual needs—Compile should reflect and accommodate the life of which it is part."

— Cecilie Manz

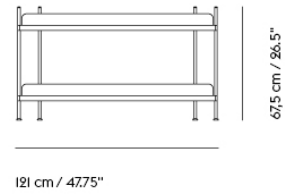

Designed by	Cecilie Manz / 2016
Environment	Indoor
Country of Production	Poland
Assembly Required	Yes
Description	A contemporary take on the classic shelving system. Compile consists of a shelf and three heights of dividing tubes. Arrange the shelves and tubes as you please or order from the prearranged configurations.
Material	Powder coated steel.
Cleaning & Care	Remove dust from shelves with a soft cloth.
Additional Product Information	Compile systems should always be mounted to a wall, using wall brackets. A Compile Shelving System can hold up to 300 kg / 660 lbs. Compile Shelving Systems can be built as tall as wanted, as long as they are mounted to a wall using brackets. Muuto recommends not building Compile systems higher than 225 cm / 88.6".

## Create your own Connect Configuration

### 1. SEATING MODULES

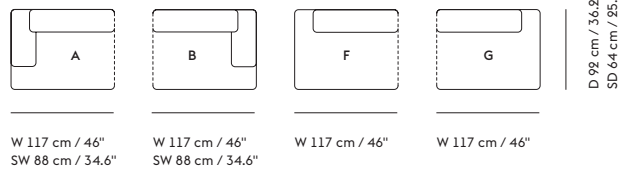

Select your desired seating modules.

Add the item numbers of the desired textile separately to your order.

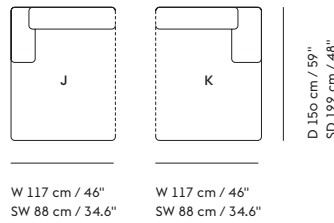

**Note**

You can only connect seating modules with pre-mounted linking brackets on the sides, illustrated here with dotted lines. Please note that the modules H & I can only be used as a freestanding ottoman and not part of the sofa configuration.

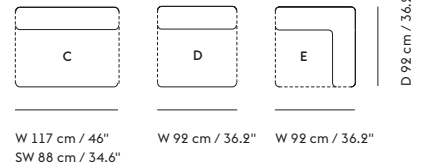

#### END MODULES

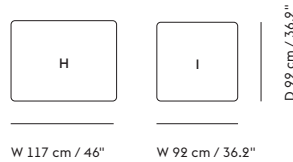

#### END & LOUNGE MODULES

#### CENTER & CORNER MODULES

#### FREESTANDING MODULES

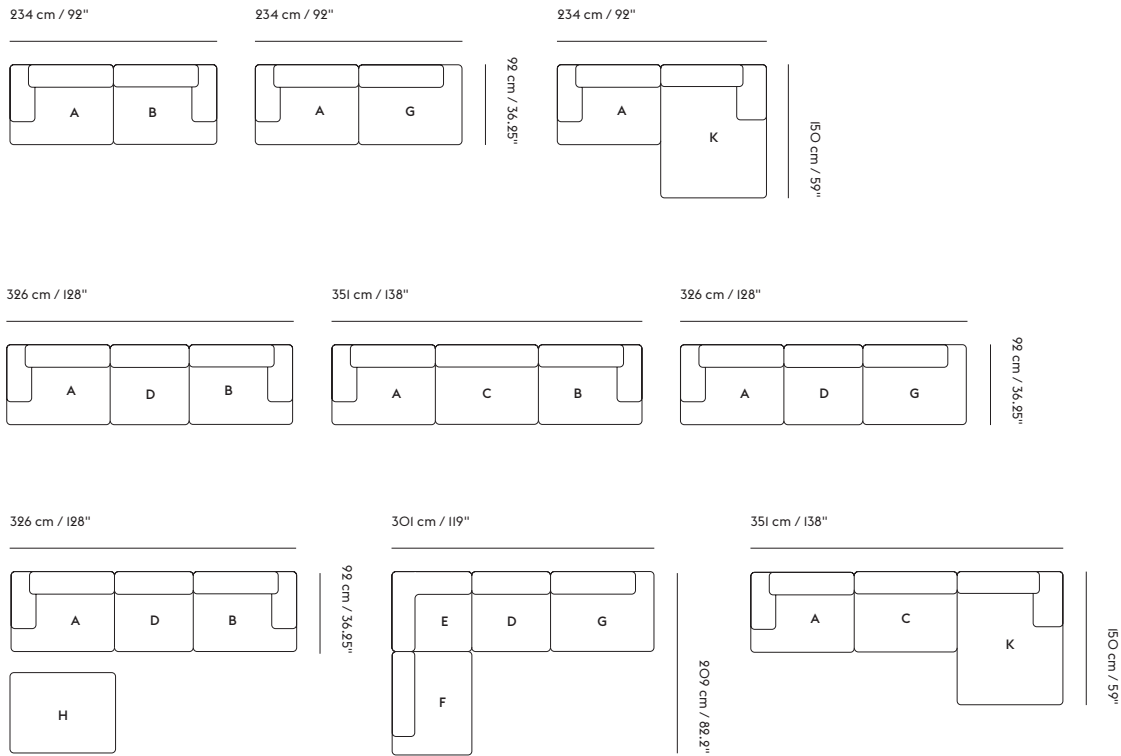

**Textile direction**

Corner Module E is designed to be used as corner. If used as End Module with armrest, the textile direction can differ. Modules connected on the left side of Corner Module E will have the same textile direction. The textile direction of modules connected on the right side will run into the opposite direction.

## CONNECT SOFT MODULAR SOFA

"The Connect Soft Modular Sofa is a seating system, rooted in the idea of uncovering the perfect proportional connections between the different components within a sofa. Designed with a deep, low seat, loose upholstery and an inherently soft filling, the Connect Soft Modular Sofa is at once elegant and contemporary—a sentiment that is echoed through its small feet underneath for a hovering expression while its box stitching infuse it with a modern touch. The design adds a geometric and elegant perspective to the archetypal modular sofa, paired with an ultra-soft comfort for hours of lounging."

Select your desired seating modules.

Add the item numbers of the desired textile separately to your order.

**Note**

You can only connect seating modules with pre-mounted linking brackets on the sides, illustrated here with dotted lines. Pouf Module I can either be connected to other modules with pre-mounted linking brackets or be used as a freestanding module.

The total dimensions of the configurations are indicative and can vary due to the inherent softness of the design and depending on how close the modules are placed as well as how many modules that are combined.

## COUPLE COFFEE TABLE

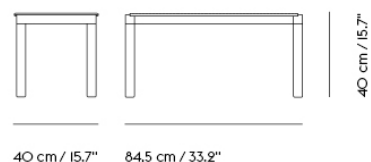

"The Couple Coffee Table was born out of my research into a traditional and essential piece of furniture — the coffee table. I wanted to come up with a new yet subtle take on its typical materials and typology. I was inspired by the materiality of fired earth like brick and terracotta, finding that a beautiful synergy occurs when it is combined with wood. I have always been drawn to texture and wanted Couple's design to have an inherently tactile character produced by the grainy feel of the tile's surface. The design allows you to choose between or combine tiles with a smooth surface or a soft wavy look."

Description	Inspired by the traditional tile table, the Couple Coffee Table is a refined merging of materials — FSC™-certified (FSC-CO28824) wood and ceramic stoneware. Made in a tactile ceramic stone material, it is a gentle nod to the durability of the brick, in aesthetics as well as quality. This sense of tactility is enhanced by the option of two different tabletop tiles; one with a plain and functional surface, the other with a more sculptural wavy feel. Choose between 36 prearranged variants spanning across various finishes and three sizes, from the petite to the grand coffee table with plenty of room for books and objects of affection.
Material	Tabletop tiles made in ceramic stoneware treated with a stone sealer for extra stain protection. Tiles are placed loosely on top of the frame with rubber anti-slip pads securing the tiles in place. Frame in solid oak treated with either clear or dark oil, made using FSC™-certified (FSC-CO28824) wood. Premounted felt glides.
Cleaning & Care	<p>Tabletop:</p> <p>For general maintenance: Clean the table with a damp cloth, using only mild (not concentrated) detergents or washing up liquids. Always dry with a cloth after cleaning. To avoid the risk of permanent stains and marks, liquid, grease, etc., these should be removed immediately. It is highly recommended to re-apply stone sealer 1-2 times a year on the tabletop surface in order to upkeep its stain-protection. Stone sealer can be purchased in your local hardware store*.</p> <p>Frame:</p> <p>We recommend applying special oak wood oil on the frame when necessary. For solid oak we recommend using an oil with a small amount of white pigment. For dark oiled oak we recommend using a smoked tabletop oil*. Never place the table up in the immediate distance of a heat source.</p> <p>*Please contact <a href="mailto:customercare@muuto.com">customercare@muuto.com</a> for recommendations on specific oak wood oils and stone sealers available in your region.</p>

## COVER CHAIR SERIES

"The Cover Chair Series is born from a desire to create a comfortable and contemporary chair in wood. I aimed for a crisp and vivid expression in the plywood while looking for a solid and grounded look in the frame and base of the design. Years of play and hard work in the making has resulted in a light, yet strong chair design that takes the material of veneer to its extreme."

With its curved backrest and folded covers, the Cover Chair Series explores the possibilities of wooden veneer, paired with a deep comfort, modern expression and base in solid wood. Echoing the seamless appearance of the chair, it features no visible screws for a simple touch. Use the Cover Chair Series in the living room, hallway or bedroom of the home as well as in restaurants, canteens, educational institutions, workplaces and more.</p> <p>The Cover Series without upholstery is EU Ecolabel Certified. ## DOZE LOUNGE CHAIR & OTTOMAN

"Scandinavia has a long tradition of extensively comfortable lounge chairs; at the heart of our design heritage lies the versatile concept of comfort. As such, the idea of creating a grand lounge chair came very natural to us. The visual references of the Doze Lounge Chair are however derived from the modern and clear lines of the Golden Age in Danish design, while at the same time being informed by some of our favorite designs of the 1970's. To us, the characteristically large and sheltering back that embraces the soft seat creates a combination of the Scandinavian design ethos and the lines of 1970's objects in a way that we find truly refreshing."

## FIBER CHAIR SERIES

"One of the most difficult and noble disciplines is to design without eccentricity, creating simple, well-functioning and almost ordinary objects that nevertheless have strong identities. We designed the Fiber Chair Family to do just that through a clear sculptural language that refuses to compromise on comfort. It's a chair stripped of all unnecessary layers. The iconic form combines soft, embracing curves with an innovative wood fiber composite, giving the Fiber Chair Family a unique expression and tactile texture."

## FIVE POUF

"The Five Pouf explores the possibility and tension of the pentagon shape. The design process was very much about tailoring; the quilted ribs are seemingly wrapped around the shape and enhance the dynamics of the pentagon. The quilting adds a softness to the seat, and the textiles we have chosen are very responsive to the undulating surface of the cover."

Description	The Five Pouf is a versatile, easy-to-use design that is both comfortable and contemporary. Comes in four different colors.
Material	Wooden frame, wooden feet, moulded foam and upholstered with textile.
Cleaning & Care	Remove non-greasy stains by carefully dabbing with a lint-free cloth or sponge wrung out in clean warm water. If necessary, clean by dabbing with soapy water with a little dish soap. ## IN SITU MODULAR SOFA

"With the In Situ Modular Sofa, we wanted to combine the functions of modularity with the beauty of simple, elegant lines and a deep comfort. We sketched a profile that runs along the seat and back of the sofa to subtly hide the visual elements of modularity, giving it a unique character while bringing the individual modules together for a complete appearance. This is paired with grand, sculptural lines and the inherent comfort of its soft seat. The In Situ Modular Sofa combines the grandeur of traditional Italian sofas with the refined simplicity of Scandinavian design, making it the heart of any space."

A grand modular sofa that can be tailored to your exact needs with its modular elements hidden through the subtle detailing of the frame's front profile, paired with deep comfort and a soft seat.

With the In Situ Modular Sofa, you can choose between any of the 30 predesigned configurations on the following pages or create your own configuration, following the guidelines below.

Visit [planner.muuto.com](http://planner.muuto.com) to create your own configuration online.

## Create your own In Situ Configuration

### 1. SEATING MODULES

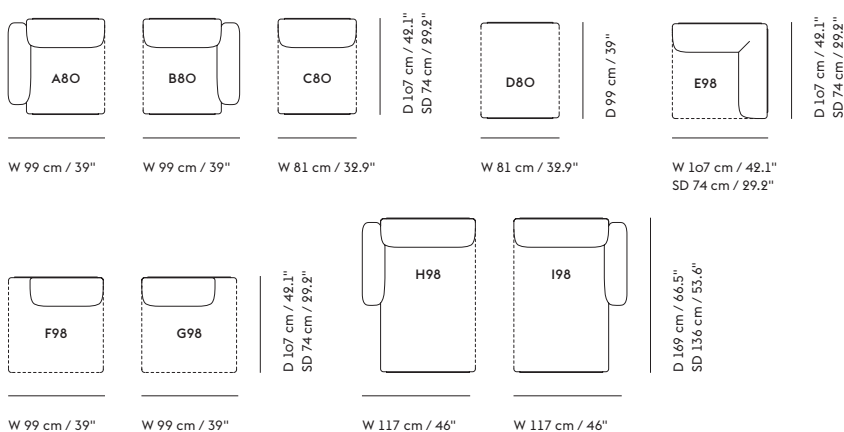

Find the seating modules of your desired configuration and add the item numbers of the desired textile or leather upholstery separately to your order.

You can only connect modules to the open sides and end of the modules, illustrated here with dotted lines.

An In Situ configuration must always have one of the following seating modules at each end: Armrest Module (A80, B80, H98 or I98), Ottoman Module (D80) or Open-Ended Module (F98 or G98).

The Ottoman Module (D80) can only be used in extension of Open-Ended Modules (F98 or G98) or as the only free-standing I-Seater configuration possible to build.

### SEATING MODULES

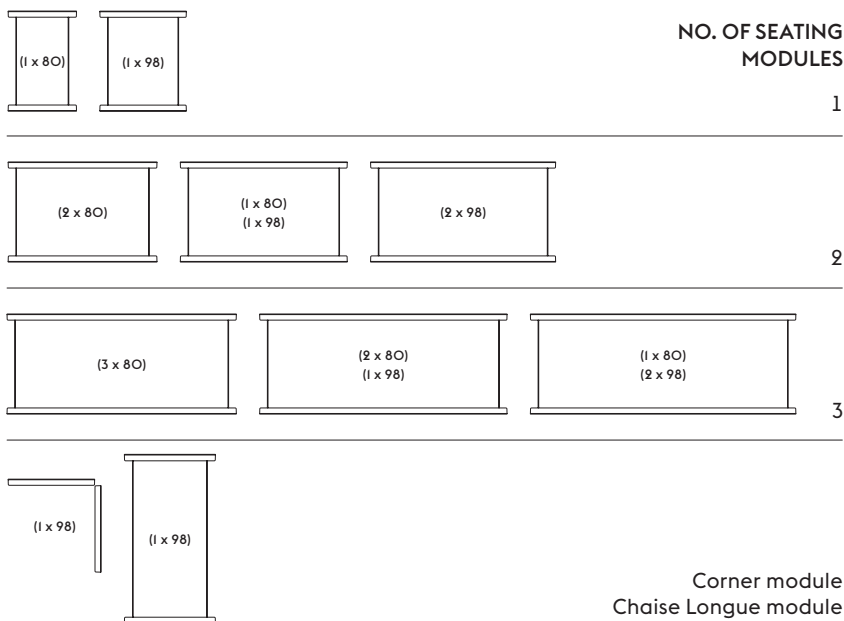

### 2. FRAME SECTIONS

Choose the frame section(s) that match the seating modules of the desired configuration (10 frame sections to choose from in total). We recommend using as few frame sections as possible when creating your own configuration for a clean appearance.

A Frame Corner Section must always be supported by sections in the two open directions.

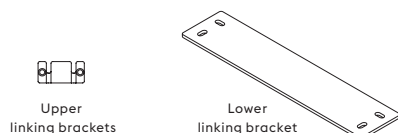

A configuration with chaise longue modules H98 or I98 must be created using at least 2 sections in total.

### 3. LINKING BRACKETS

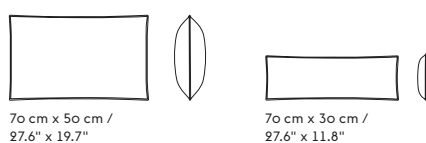

Identify the amount of linking brackets required to connect the modules in your configuration, following the guidelines below. **Linking brackets must always be used when joining together frame sections.**

Linking brackets must always be mounted on the adjacent sections that face the corner section.

### 4. CUSHIONS

Specify optional cushions in the desired textile or leather for added comfort and a lounging expression.

## LINEAR WOOD SERIES

"The Linear Wood Series was designed from the idea of bringing the warm and friendly sentiment of wood into a timeless, understated shape with its form language inspired by the notion of meetings—the meetings of lines and shapes. The design is defined by its straight lines for a contemporary yet honest aesthetic through the details of its thinly elegant overhang and half-circular intersecting legs. It is through these subtle elements that the Linear Wood Series translates the values of elegance, longevity and functionality into modern Scandinavian design."

— Thomas Bentzen

Designed by	Thomas Bentzen / 2019
Environment	Indoor
Country of Production	Latvia
Assembly Required	Yes
Description	The Linear Wood Series brings a simple and elegant perspective to wooden furniture through its modern form language with understated details for a long-lasting expression. Kept visually clean for long-lasting aesthetics, the Linear Wood Series finds its distinct character through subtle detailing and a simple expression.
Material	Top in lacquered oak veneer with veneered plywood aprons and lacquered solid oak legs.
Cleaning & Care	Clean with a damp cloth. If necessary, only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away.

## LINEAR SYSTEM

“The Linear System Series places people at its center, being a place to meet, to collaborate or to work in focused solitude. The design process was about creating a system that made for intimately welcoming atmospheres, enhanced by the expression and functionality of its lighting and accessories. The Linear System Series brings feelings of home into larger spaces to give the user a sense of belonging. The extensive selection of lighting and accessories means that the Linear System Series can be configured and reshuffled for any purpose, marrying the ideas of aesthetics and function into one.”

Description	<p>The Linear System Series brings a new perspective to the evolving needs of modern spaces. The Linear System Table is a simple yet refined table with subtle details and references to the Scandinavian design heritage. Its legs are cut into half-circles and joined with the table for a light expression while the slender overhang at both ends of the table makes for a refined expression. The Linear System Table is available as a freestanding table to be used on its own, as predesigned configurations or as Middle and End Modules that can be configured to the exact needs of your space. Screens and trays are available in various sizes and are mounted into the ridge that runs down the tabletop, allowing for them to be shuffled around as functional and aesthetic needs evolve. Adjustable feet are included for the possibility of adjusting the height of the table's legs. Visit our Product Planner to explore the possible configurations: <a href="http://planner.muuto.com/linear">planner.muuto.com/linear</a></p>
Material	<p>Table: Tabletop comes in Oak veneer, black version in Ash veneer, Black Nanolaminate or White Laminate. Black Nanolaminate and White Laminate has an ABS edge. Table frame in veneered plywood and legs in Solid Oak. Felt glides included.</p> <p>Oak Veneer color variations: The Oak Veneer tabletops of the Linear System Series are made using high-quality mix-matched veneer to avoid differences in the visual appearance from tabletop to tabletop. However, wood is a natural material, and this means that slight variations can occur from table to table.</p> <p>Accessories: Screens are in solid oak and veneered MDF with powder coated aluminum fixing knobs. Possibility of upholstery on Screens. Tray 170 cm is in solid oak and veneered MDF, Tray Ø24 and Tray Ø36 are solid oak, all with powder coated aluminum fixing knobs. Cable Tray in PET felt.</p>
Cleaning & Care	<p>Wood &amp; Veneer Surfaces: Clean the table with a damp cloth. If necessary, only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away.</p> <p>Laminate Surface: Clean the table with a damp cloth. If necessary, use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquids, grease etc. should be removed straight away.</p> <p>Warning for Power System: Disconnect from main supply before cleaning. Clean with soft dry cloth only. Always switch off electricity supply before cleaning.</p>

## LOFT CHAIR SERIES

“The Loft Chair Series combines the complementing opposites of robustness and elegance through materials—its wooden seat and metal frame—with a soft, industrial appeal. The design features an archetypical look for a feeling of familiarity while the subtle details, such as its sturdy back legs, gives it a unique expression. The design fits seamlessly into any spatial context while providing maximum comfort to its user.”

— Thomas Bentzen

Material	Back and seat in veneer with a beech core and an oak veneer top with water-based lacquer. Frame in powder coated steel.
Cleaning & Care	Wipe off with moist cloth and remove excess liquid with dry cloth. For upholstery version, please find cleaning instructions for your chosen textile at kvadrat.dk.

## MIDST TABLE

“Midst Table is a meeting between the poetic and functional. The name refers to the center and the table being a gravitational point, while its round shape cancels out hierarchy — there is no head of the table. Its shape naturally draws us in towards its middle, encouraging a meeting of minds and eyes. Our design process was one of subtraction and refinement. The Midst Table’s form and construction was inspired by an iconic architectural feature, the column, merging a physical stability and steadfastness with a sense of elegance.”

Description	A natural focal point of the home, the Midst Table is a generous, round dining table where friends and family gather — and there is always room to squeeze in one more guest. Its refined silhouette is simple yet characteristic, enhanced by distinct detailing and contrasting materiality; matte solid oak or linoleum on a monolithic base made of spun steel with a durable high gloss finish.
Material	Table top in lacquered MDF with a linoleum top or FSC™ (FSC-CO28824) certified solid oak, treated with either a white pigmented or dark oil. Base in powder-coated steel with a protective rubber ring under the base.
Cleaning & Care	<p>Linoleum: Clean the tabletop with a damp cloth. If necessary, only use a mild detergent or washing-up liquid, never concentrated. Always wipe with a dry cloth afterward. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away. For linoleum versions, linoleum care is recommended 2-3 times a year for optimum saturation of the natural material. Clean base with a microfiber cloth to avoid scratching the high gloss lacquer. If necessary use a small amount of mild dish soap on the cloth.</p> <p>Solid Oak &amp; Dark Oiled Oak: Upon receiving your table, we recommend that the table top and bottom is treated with a special oak wood oil, improving its resistance to stains and fluids. We also recommend that you continue caring for the product by repeating this treatment 2-3 times a year. For products in Solid Oak, we recommend using a tabletop oil with a small amount of white pigment, suitable for food applications*. For products in Dark Oiled Oak, we recommend using a smoked tabletop oil, suitable for food applications*.</p> <p>Avoid placing the table in the immediate distance of a heat source. Do not place hot or wet objects directly on the table, as they can leave a mark on the table top. Metal objects can leave a mark if left on the table for a longer period of time.</p> <p>Spilling should immediately be removed to avoid discoloring. Clean the tabletop often and carefully with a soft and dry cloth following the wood grain pattern. The product should not be exposed to excessive humidity, heat or direct sunlight. Clean base with a microfibre cloth to avoid scratching the high gloss paint. If necessary, use a small amount of mild dish soap on the cloth.</p> <p>*Please contact <a href="mailto:customer care@muuto.com">customer care@muuto.com</a> for recommendations on specific oak wood oils available in your region.</p>

The Nerd Chair Series brings new perspectives to Scandinavian design by combining the traditional material of wood with a simple yet eccentric design language, making for a timeless chair that adds character to any space."

## OUTLINE SOFA SERIES

"With the Outline Sofa Family, we wanted to create a visually light and elegant design with lots of comfort, translating aspects of modern architecture into the design through juxtaposing elements. Outline is created with slim proportions for a simple and elegant look, complemented by its generous seat and slender legs. There's a calm serenity about the Outline Sofa Family, having a soft and deep seat with clean lines and a strong architectural presence, brought forth by its overlapping forms that bring a refined touch to the expression of the design."

— Anderssen & Voll

Designed by	Anderssen & Voll / 2016
Environment	Indoor
Country of Production	Lithuania or Slovakia
Assembly Required	Yes – Mount legs. Please note that the Highback Sofas 1-Seater, 2-Seater, 3-Seater, Work and Cabin are not preassembled.
Description	The Outline Sofa Family adds new perspectives to the classic Scandinavian design sofas of the 1960's, marrying the ideals of simplicity and function into one. With the design taking its name from its strong outline of a sofa, the Outline Sofa Family is clean and elegant on the outside with a deep seat and soft cushioning on its inside. The Outline Sofa Family has an expression that is at once elegant yet timeless, elevated by its lines referencing architectural shapes alongside its curved armrests, giving the design a distinct appearance across various sizes and variants.
Material	Black powder coated or polished aluminum base. Wood and steel construction. Cold foam filling. All textiles from Kvadrat or Rossini della Quercia. Leather from selected premium leather suppliers. The table unit for the Outline Highback Cabin and Outline Highback Work is made from robust MDF board with matte laminate (black ABS edges).
Cleaning & Care	Remove non-greasy stains by carefully dabbing with a lint-free cloth wrung out in clean, warm water. If necessary, clean by dabbing with soapy water. Visit <a href="http://Kvadrat.com">Kvadrat.com</a> for further information on cleaning textiles. For leather versions, clean leather with a dry cloth regularly. Treat the leather when needed using only special leather treatment products.

## RELATE SIDE TABLE

"We were seeking to design a simple, comfortable and easy-to-use side table that would make a natural complement to any lounge, work or home setting. With two soft gentle shapes connected by a bent metal bar, the Relate Side Table makes a subtle yet bold statement, serving a functional purpose while adding a touch of modern design to any space."

Description	An elegant side table with two planes, connected through a graphic leg for a modern expression. Pull the Relate Side Table up to a sofa to use as a hot desk or place it in any space to hold various objects.
Material	Black, Off-White and Blue Grey with linoleum finish. Laminated Oak Veneer. Solid Oak and Solid Smoked Oak. Frame in powder coated steel.
Cleaning & Care	<p><b>Laminate &amp; Linoleum:</b> Clean the table with a damp cloth. If necessary, only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away. For linoleum versions, linoleum care is recommended for optimum saturation of the natural material 2-3 times a year. It is recommended to clean linoleum versions with a damp cloth and a pH neutral cleaner and wipe dry to remove any residues.</p> <p><b>Oak Veneer:</b> Clean the table with a damp cloth. We also recommend that you continue caring for the product by repeating this treatment 2-3 times a year. For products in Solid Oak, we recommend using a tabletop oil with a small amount of white pigment, suitable for food applications*. ## STILL CAFÉ TABLE

"Our idea for the Still Café Table was to create a design with an apparent function that would fit intuitively into any space without making much visual noise. With its elegant four-legged base across various heights, the design is stripped to its essentials, complemented by the angled edges of its table top."

Description	The Still Café Table is designed with a clean expression and apparent function on a four legged base, complemented by the angled edges of its table top. Available across various heights with either round or square table top, the Still Café Table is an elegant match for any kitchen area, café, restaurant, bar, conference or office setting. The higher versions also function as a hot-desk in workplaces and open areas.
Material	Table top is made from MDF with either a linoleum or nanolaminate finish and lacquered edges. Nanolaminate table tops are made using FSC™-certified (FSC-CO28824) wood. Base is made from die-cast aluminum. The mounting plate and tube are in powder coated steel.
Cleaning & Care	<p>Powder coated surfaces: Clean with a moist cloth. If necessary use a little dish soap on the cloth.</p> <p>Nanolaminate: Clean the table with a damp cloth. If necessary only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away. Treat the surface with a melamine sponge, available in hardware stores, to reduce minor scratches.</p> <p>Linoleum: Clean the table with a damp cloth. If necessary use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquids, grease etc. should be removed straight away. For linoleum versions it is recommended to use a linoleum polish on the surface when needed.</p>

## VISU CHAIR SERIES

"The idea for the Visu Chair Family was to create an elegantly simple interpretation of the archetypal plywood chair. I wanted for the design to have a subdued and timeless character that would add feelings of modern familiarity to any room together with a comfortable seat in form-pressed veneer. Designing the chair as a family that were all aesthetically linked yet could be used for different functions was a study in adapting a design to its surroundings and a process that lasted nearly two years. The Visu Chair Family is a new perspective on the traditional wooden chair, echoing the ideas of Scandinavian design together with a modern expression."

## BEAM TABLE LAMP

"The idea for the Beam Table Lamp came while renovating my childhood home. I had made a shelf to use as divider between the hallway and living room and needed a lamp that could at once throw light out into the living room and down the hallway. The Beam Table Lamp mimics a single ray of light that travels through a round tube with its dimmer allowing the user to change the volume of light omitted from both ends of the cylinder shape. Tweak the design to your personal needs through its rotating base and sleek body of anodized aluminum, whether it be as direct lighting or for an ambient glow. With the Beam Table Lamp, you can alter the volume of light omitted, change its direction by the turn of its base and place it on any shelf, table or windowsill for a new perspective on modern lighting."

## CONTROL TABLE LAMP

"The Control Table Lamp is a unique and playful lamp with references to hi-fi and industrial machinery. The light and dimmer is controlled by a switch, referencing volume controls, and is an inviting and simple way of interacting with the user. While designing the lamp, we were inspired by the idea of displaying the different lamp components on a serving plate—almost as a still life. It was a pragmatic approach to making a lamp by the simplest means, a reduced design beyond reduction."

## EASE PORTABLE LAMP

"I wanted the Ease Portable Lamp to have a remarkable quality of light, striking a versatile balance between atmospheric and functional light — after all, that is the wonderful thing about a portable lamp — you can bring a distinct ambience to literally anywhere. I landed on the idea of the top and bottom gently touching, softly meeting each other. There is a sense of lightness to it. This feature allows a large surface to emit light, while the flared bottom firmly stabilizes it. It is these details that give the lamp a sort of human quality, making it a reliable friend."

— Johan van Hengel

Design by	Johan van Hengel / 2023
Environment	Indoor / Outdoor
Country of Production	China
Cord Length	90 cm / 35.4"
Bulb Included	Yes - Integrated, non replaceable LED
Dimmable Function	Yes - Three step dimming
Description	Inspired by shapes of traditional table lamps, the Ease Portable Lamp transforms this typology into a carryable size, suitable to take wherever. Ease offers a high-quality dimmable, no-glare light with three levels, striking a balance between atmospheric and functional light. The design has a distinct lightness to it, with the top and bottom gently touching. A slightly flared bottom mimics the lip of a vase in a grounding gesture that allows the base to be slimmer and easier to grab. Ease Portable Lamp is a humble friend with a strong character that works alone or in repetition in any setting; from the bedside, reading nook and home office to the restaurant or café table, co-working space or library.
Material	Battery-powered, dimmable and portable lamp with 8 hours of battery life on 100% intensity, 16 hours on 50% intensity and 29 hours on 25% intensity. Body and lampshade made in injection-molded ABS plastic, with an integrated LED light source. Diffuser in opal acrylic. Charging dock made in injection-molded ABS plastic with USB-C cable. Lumen Maintenance (L70): 52,000h. Lumen: 230lm on 100% brightness. Kelvin: 2700K. CRI >90.  The Ease Portable lamp is suitable for outdoor use with an IP54 rating. The lamp is protected and tested against solid foreign objects, such as dust ingress, as well as liquids, such as water splashes, from all angles.
Cleaning & Care	Clean with a moist cloth. If necessary, use a little dish soap on the cloth.

## FLUID PENDANT LAMP

"We wanted to give the lamp a form with a certain softness, towards a more natural language and further removed from pure geometry. Fascinated by the way that surface tension governs the curvature of a resting water droplet, we have tried to capture its essence. The subtle irregularity of the Fluid Pendant Lamp means that their silhouette gently changes depending upon the viewing angle. It also brings a greater light intensity to the lamp's underside—just where you need it."

## FOCUS TABLE LAMP

"The Focus Table Lamp is an everyday object with a sculptural appeal and an apparent function: it is a lamp and a pedestal where your favorite small objects may be placed and highlighted. Working with the appearance and the delicate dimensions, I tried to give the lamp a unique personality characterized by an embracing and protective nature. The focus is on the pedestal and the object which is placed on it. Therefore, all components are fixed in position. Personally, the pedestal, with a cone of ambient light, solved my problem of misplacing my keys. Now I always know where they are."

## RIME PENDANT LAMP

"Designing simple things is often one of the hardest things to do. We wanted to create a simple lamp with a glass shape, giving it a soft expression while making its top and pendant tube as subtle as possible. We were inspired by the shape of acorns for the gentle lines of the pendant while hinting towards the shaded expression of ice and rime for the glass of the design, allowing for the light to shine slightly through with a refined touch. The Rime Pendant Lamp brings a timeless yet modern perspective to the archetypal light through its translucent shade and graphic form."

Wooly is woven in 70% recycled wool, sourced from leftover materials of clothing production and other wool products. One kilo of pure new wool generates 9 kilograms of carbon dioxide when produced while processing one kilo of recycled wool only generates 0.5 kilograms of carbon dioxide. Furthermore, recycled wool has a positive environmental impact due to lessened water consumption and lower energy consumption.

Natural variations in organic materials cannot be considered defects, and Muuto explicitly excludes itself from liability for any such variations. Muuto cannot in any way be held responsible for materials delivered by the buyer, including the compliance of such materials with local law of the country or state to which they are delivered, irrespective of whether such materials have been upholstered or otherwise incorporated into Muuto's products by Muuto."
