AROUND COFFEE TABLE

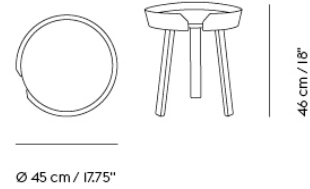

“I wanted to create a modernly timeless perspective on the archetypal Scandinavian coffee table, taking inspiration from memories of visiting my grandparents’ house as a child and being nervous about spilling something from their coffee table and onto the beautiful carpets. This gave me the idea for Around Coffee Table with its subtle veneer frame. The design has an at once subtle and significant presence through its geometric legs, characterful frame and friendly opening for a forward-thinking take on Scandinavian craftsmanship.”

— Thomas Bentzen

Designed by	Thomas Bentzen / 2011

Country of Production	Latvia

Description	The Around Coffee Table brings a new perspective to its typology through the characterful wooden veneer frame that runs along the edge of the table, echoing the ideas of Scandinavian design. With its round shape and multiple sizes, the Around Coffee Table can be used in a multitude of settings, on its own or in groups, in any living room, lounge setting, lobby area or hotel room.
Material	Oak & Ash versions are made from oak or ash plywood and solid oak or ash legs. Colored versions are made from MDF or ash plywood and solid ash legs. All versions are made using FSC™ (FSC-CO28824) certified wood. The wood is carefully cut, bent, glued together and polished to create a unique table. The strong water-based lacquer surface protects the tables from wear and tear of everyday use.
Cleaning & Care	Clean the table with a damp cloth. If necessary only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away. Treat the surface with a melamine sponge, available in hardware stores, to reduce minor scratches.

BASE TABLE SERIES

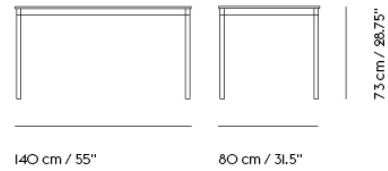

"I wanted the table to have its own character but not be imposing. The design aim was to reduce the table to its archetypal form. The functional simplicity of Base is supported by behind-the-scenes technology to create a slim, lightweight and strong table. At the same time, Base is friendly and welcoming in the way it looks."

— Mika Tolvanen

Description	The Base Table Series references the heritage of Scandinavian design through its simple frame and subtle details. With its design harking back to the essence of a table, the Base Table Series features a veneer edge for a touch of Scandinavian materiality, paired with the elegant shapes of its table top and frame. Use the design in any home, workplace, educational institution or hospitality space for notes of Scandinavian simplicity.
Material	Frame in powder coated aluminum with legs and stretcher in aluminum or steel for high tables. Bases available in Black or White. Castors with brakes available in Black or White matching the base color. Table top in plywood with either laminate, linoleum or lacquered oak veneer surface with plywood edge or chipboard with laminate surface and ABS edges.
Cleaning & Care	Clean the table with a damp cloth. If necessary use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquids, grease etc. should be removed straight away. For linoleum versions, linoleum care is recommended for optimum saturation of the natural material 2-3 times a year. It is recommended to clean linoleum versions with a damp cloth and a pH neutral cleaner and wipe dry to remove any residues.
Spare Parts	Tables with two or four adjustable feet screws are made-to-order for all table sizes

For tables longer than 250cm, additional leg support is needed; the top will be split into 2 parts and additional legs added. Laminate with ABS or plywood edge in Black or White. Linoleum with plywood edge. Our Cable Management Solution can be added to the Base Table.

COMPILE SHELVING SYSTEM

"Storage is important because it is so universal: everybody needs good solutions. The inspiration for the Compile Shelving System was indeed the everyday storage situation. The design, with its logical construction, parallels to a certain degree an unpretentious Scandinavian lifestyle—one shelf represents one building unit while the length of the tube defines the shelf height. In this simple way one can assemble practical formations that fit individual needs—Compile should reflect and accommodate the life of which it is part."

— Cecilie Manz

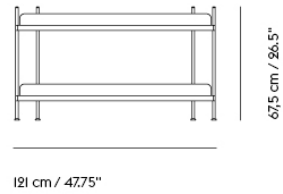

Designed by	Cecilie Manz / 2016
Environment	Indoor
Country of Production	Poland
Assembly Required	Yes
Description	A contemporary take on the classic shelving system. Compile consists of a shelf and three heights of dividing tubes. Arrange the shelves and tubes as you please or order from the prearranged configurations.
Material	Powder coated steel.
Cleaning & Care	Remove dust from shelves with a soft cloth.
Additional Product Information	Compile systems should always be mounted to a wall, using wall brackets. A Compile Shelving System can hold up to 300 kg / 660 lbs. Compile Shelving Systems can be built as tall as wanted, as long as they are mounted to a wall using brackets. Muuto recommends not building Compile systems higher than 225 cm / 88.6".

CONNECT SOFT MODULAR SOFA

"The Connect Soft Modular Sofa is a seating system, rooted in the idea of uncovering the perfect proportional connections between the different components within a sofa. Designed with a deep, low seat, loose upholstery and an inherently soft filling, the Connect Soft Modular Sofa is at once elegant and contemporary—a sentiment that is echoed through its small feet underneath for a hovering expression while its box stitching infuse it with a modern touch. The design adds a geometric and elegant perspective to the archetypal modular sofa, paired with an ultra-soft comfort for hours of lounging."

COUPLE COFFEE TABLE

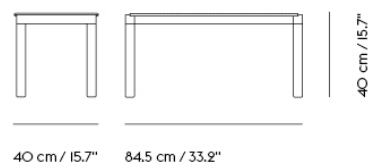

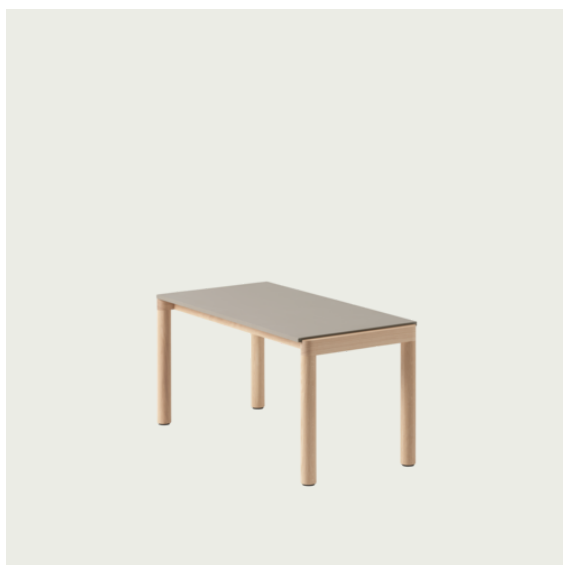

"The Couple Coffee Table was born out of my research into a traditional and essential piece of furniture — the coffee table. I wanted to come up with a new yet subtle take on its typical materials and typology. I was inspired by the materiality of fired earth like brick and terracotta, finding that a beautiful synergy occurs when it is combined with wood. I have always been drawn to texture and wanted Couple's design to have an inherently tactile character produced by the grainy feel of the tile's surface. The design allows you to choose between or combine tiles with a smooth surface or a soft wavy look."

— Sylvain Willenz

Designed by	Sylvain Willenz / 2023
Environment	Indoor
Country of Production	Italy
Assembly Required	Yes
Description	Inspired by the traditional tile table, the Couple Coffee Table is a refined merging of materials — FSC™-certified (FSC-CO28824) wood and ceramic stoneware. Made in a tactile ceramic stone material, it is a gentle nod to the durability of the brick, in aesthetics as well as quality. This sense of tactility is enhanced by the option of two different tabletop tiles; one with a plain and functional surface, the other with a more sculptural wavy feel. Choose between 36 prearranged variants spanning across various finishes and three sizes, from the petite to the grand coffee table with plenty of room for books and objects of affection.
Material	Tabletop tiles made in ceramic stoneware treated with a stone sealer for extra stain protection. Tiles are placed loosely on top of the frame with rubber anti-slip pads securing the tiles in place. Frame in solid oak treated with either clear or dark oil, made using FSC™-certified (FSC-CO28824) wood. Premounted felt glides.
Cleaning & Care	<p>Tabletop:</p> <p>For general maintenance: Clean the table with a damp cloth, using only mild (not concentrated) detergents or washing up liquids. Always dry with a cloth after cleaning. To avoid the risk of permanent stains and marks, liquid, grease, etc., these should be removed immediately. It is highly recommended to re-apply stone sealer 1-2 times a year on the tabletop surface in order to upkeep its stain-protection. Stone sealer can be purchased in your local hardware store*.</p> <p>Frame:</p> <p>We recommend applying special oak wood oil on the frame when necessary. For solid oak we recommend using an oil with a small amount of white pigment. For dark oiled oak we recommend using a smoked tabletop oil*. Never place the table up in the immediate distance of a heat source.</p> <p>*Please contact customercare@muuto.com for recommendations on specific oak wood oils and stone sealers available in your region.</p>

COVER CHAIR SERIES

"The Cover Chair Series is born from a desire to create a comfortable and contemporary chair in wood. I aimed for a crisp and vivid expression in the plywood while looking for a solid and grounded look in the frame and base of the design. Years of play and hard work in the making has resulted in a light, yet strong chair design that takes the material of veneer to its extreme."

— Thomas Bentzen

Designed by	Thomas Bentzen / 2013
Environment	Indoor
Country of Production	Armchair & Lounge Chair in Latvia / Bar Stool, Counter Stool & Side Chair in Romania
Assembly Required	No
Description	<p>Referencing the values of honest craftsmanship and Scandinavian materiality, the Cover Chair Series is an elegant perspective on the timeless wooden chair. With its curved backrest and folded covers, the Cover Chair Series explores the possibilities of wooden veneer, paired with a deep comfort, modern expression and base in solid wood. Echoing the seamless appearance of the chair, it features no visible screws for a simple touch. Use the Cover Chair Series in the living room, hallway or bedroom of the home as well as in restaurants, canteens, educational institutions, workplaces and more.</p> <p>The Cover Series without upholstery is EU Ecolabel Certified. By carrying the EU Ecolabel Certification, the product is guaranteed to have a reduced environmental impact throughout the total lifecycle of the product from raw material to disposal.</p>
Material	<p>The Cover Chair Series is made from form pressed wood. The wood is folded over the chair's legs and backrest. This technically innovative wood layering helps lock the elements of the chair together. Upholstered seats are with textiles from Kvadrat or Refine Leather.</p> <p>Cover Armchair: Oak and Stained Dark Brown versions: Back, seat and armrest in oak veneer, solid oak frame and legs. Water based lacquer. Colored versions: Back, seat and armrest in ash veneer, frame and legs are made from solid beech wood. With water based lacquer.</p> <p>Cover Lounge Chair: Back and seat in oak veneer, solid oak frame and legs. Water based lacquer.</p> <p>Cover Side Chair: Back and seat in oak veneer, solid oak frame and legs. Water based lacquer. Stacking Pad in felt made from 60% post-consumer recycled content. Stackable up to 4 pcs on floor and 10 on trolley (with and without upholstery).</p> <p>Cover Bar & Counter Stool: Back and seat in oak veneer, solid oak frame and legs. Made using FSCTM (FSC-CO28824) certified wood. Water based lacquer. Footrest protector for bar and counter stool in tumbled stainless steel.</p>
Cleaning & Care	For textile versions, please find cleaning instructions for your chosen textile at kvadrat.dk. For leather versions clean leather with a dry cloth regularly. Treat the leather when needed using only special leather treatment products. For wood versions clean the chair with a damp cloth. If necessary only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away.
Spare Parts	Pre-mounted plastic glides included. Felt and plastic glides can be purchased separately.

DOZE LOUNGE CHAIR & OTTOMAN

"Scandinavia has a long tradition of extensively comfortable lounge chairs; at the heart of our design heritage lies the versatile concept of comfort. As such, the idea of creating a grand lounge chair came very natural to us. The visual references of the Doze Lounge Chair are however derived from the modern and clear lines of the Golden Age in Danish design, while at the same time being informed by some of our favorite designs of the 1970's. To us, the characteristically large and sheltering back that embraces the soft seat creates a combination of the Scandinavian design ethos and the lines of 1970's objects in a way that we find truly refreshing."

Use the Doze Lounge Chair on its own or with the Doze Ottoman.

FIBER CHAIR SERIES

"One of the most difficult and noble disciplines is to design without eccentricity, creating simple, well-functioning and almost ordinary objects that nevertheless have strong identities. We designed the Fiber Chair Family to do just that through a clear sculptural language that refuses to compromise on comfort. It's a chair stripped of all unnecessary layers. The iconic form combines soft, embracing curves with an innovative wood fiber composite, giving the Fiber Chair Family a unique expression and tactile texture."

FIBER CONFERENCE ARMCHAIR

"One of the most difficult and noble disciplines of design is to create simple, well-functioning and almost ordinary objects that nevertheless have a strong identity. We designed the Fiber Conference Armchair to do just that. The chair's sculptural language, paired with its wide seat, refuses to compromise on comfort and invites the user to be seated for hours on end. Through soft upholstery and the fixed cushion of its seat, the Fiber Conference Armchair enhances the idea of grand comfort. The chair's inner shell is made using recycled plastic for a conscious and innovative perspective on materials."

FIVE POUF

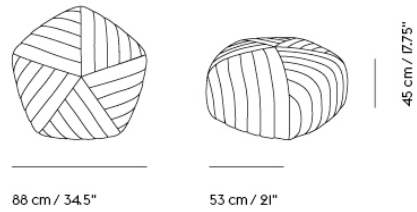

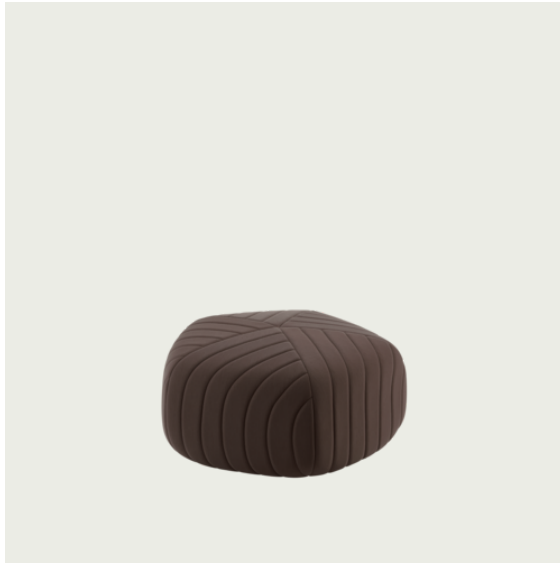

"The Five Pouf explores the possibility and tension of the pentagon shape. The design process was very much about tailoring; the quilted ribs are seemingly wrapped around the shape and enhance the dynamics of the pentagon. The quilting adds a softness to the seat, and the textiles we have chosen are very responsive to the undulating surface of the cover."

IN SITU MODULAR SOFA

"With the In Situ Modular Sofa, we wanted to combine the functions of modularity with the beauty of simple, elegant lines and a deep comfort. We sketched a profile that runs along the seat and back of the sofa to subtly hide the visual elements of modularity, giving it a unique character while bringing the individual modules together for a complete appearance. This is paired with grand, sculptural lines and the inherent comfort of its soft seat. The In Situ Modular Sofa combines the grandeur of traditional Italian sofas with the refined simplicity of Scandinavian design, making it the heart of any space."

A grand modular sofa that can be tailored to your exact needs with its modular elements hidden through the subtle detailing of the frame's front profile, paired with deep comfort and a soft seat.

With the In Situ Modular Sofa, you can choose between any of the 30 predesigned configurations on the following pages or create your own configuration, following the guidelines below.

Visit planner.muuto.com to create your own configuration online.

Create your own In Situ Configuration

1. SEATING MODULES

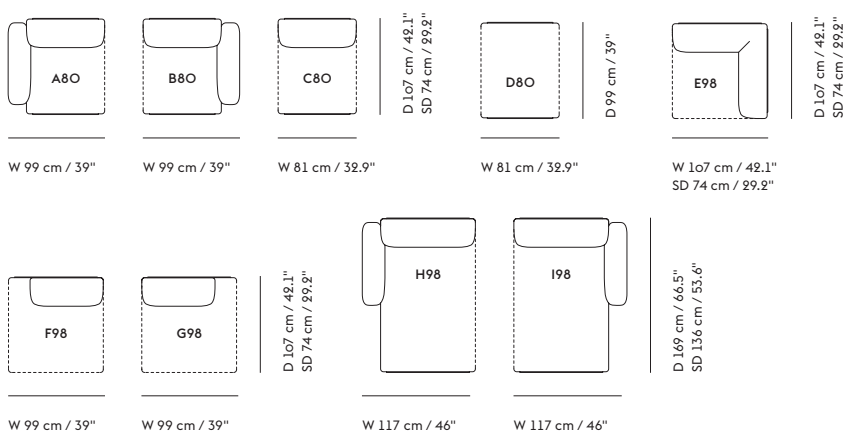

Find the seating modules of your desired configuration and add the item numbers of the desired textile or leather upholstery separately to your order.

You can only connect modules to the open sides and end of the modules, illustrated here with dotted lines.

An In Situ configuration must always have one of the following seating modules at each end: Armrest Module (A80, B80, H98 or I98), Ottoman Module (D80) or Open-Ended Module (F98 or G98).

The Ottoman Module (D80) can only be used in extension of Open-Ended Modules (F98 or G98) or as the only free-standing I-Seater configuration possible to build.

SEATING MODULES

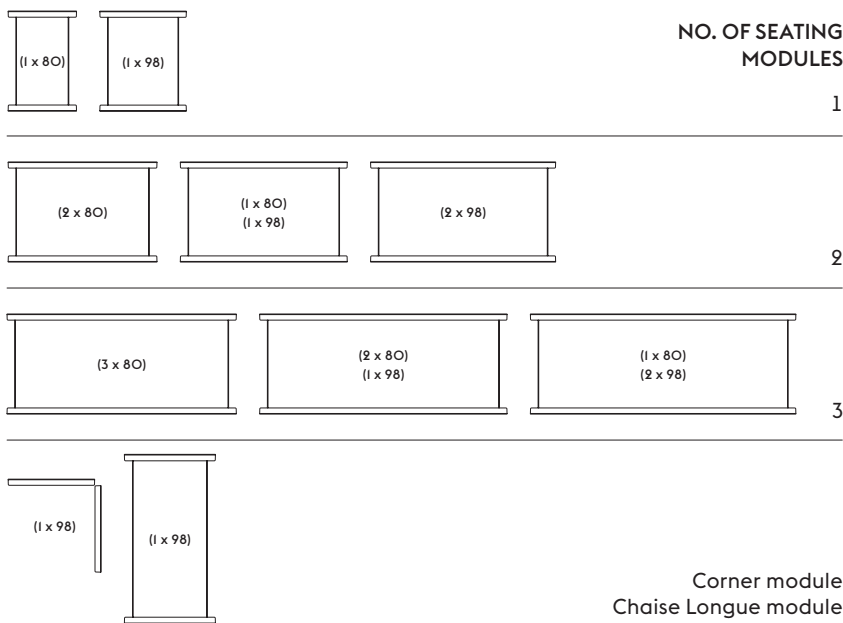

2. FRAME SECTIONS

Choose the frame section(s) that match the seating modules of the desired configuration (10 frame sections to choose from in total). We recommend using as few frame sections as possible when creating your own configuration for a clean appearance.

A Frame Corner Section must always be supported by sections in the two open directions.

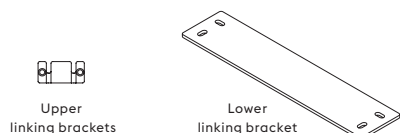

A configuration with chaise longue modules H98 or I98 must be created using at least 2 sections in total.

3. LINKING BRACKETS

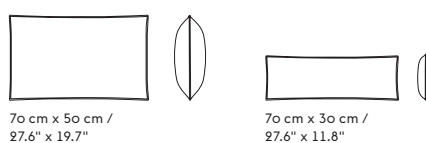

Identify the amount of linking brackets required to connect the modules in your configuration, following the guidelines below. **Linking brackets must always be used when joining together frame sections.**

Linking brackets must always be mounted on the adjacent sections that face the corner section.

4. CUSHIONS

Specify optional cushions in the desired textile or leather for added comfort and a lounging expression.

LINEAR WOOD SERIES

"The Linear Wood Series was designed from the idea of bringing the warm and friendly sentiment of wood into a timeless, understated shape with its form language inspired by the notion of meetings—the meetings of lines and shapes. The design is defined by its straight lines for a contemporary yet honest aesthetic through the details of its thinly elegant overhang and half-circular intersecting legs. It is through these subtle elements that the Linear Wood Series translates the values of elegance, longevity and functionality into modern Scandinavian design."

LINEAR SYSTEM

“The Linear System Series places people at its center, being a place to meet, to collaborate or to work in focused solitude. The design process was about creating a system that made for intimately welcoming atmospheres, enhanced by the expression and functionality of its lighting and accessories. The Linear System Series brings feelings of home into larger spaces to give the user a sense of belonging. The extensive selection of lighting and accessories means that the Linear System Series can be configured and reshuffled for any purpose, marrying the ideas of aesthetics and function into one.”

Screens and trays are available in various sizes and are mounted into the ridge that runs down the tabletop, allowing for them to be shuffled around as functional and aesthetic needs evolve. Adjustable feet are included for the possibility of adjusting the height of the table's legs. Visit our Product Planner to explore the possible configurations: planner.muuto.com/linear</p>

LOFT CHAIR SERIES

“The Loft Chair Series combines the complementing opposites of robustness and elegance through materials—its wooden seat and metal frame—with a soft, industrial appeal. The design features an archetypical look for a feeling of familiarity while the subtle details, such as its sturdy back legs, gives it a unique expression. The design fits seamlessly into any spatial context while providing maximum comfort to its user.”

MIDST TABLE

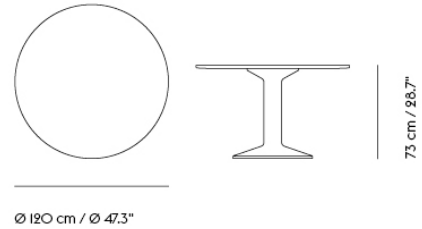

“Midst Table is a meeting between the poetic and functional. The name refers to the center and the table being a gravitational point, while its round shape cancels out hierarchy — there is no head of the table. Its shape naturally draws us in towards its middle, encouraging a meeting of minds and eyes. Our design process was one of subtraction and refinement. The Midst Table’s form and construction was inspired by an iconic architectural feature, the column, merging a physical stability and steadfastness with a sense of elegance.”

Country of Production	Base: Latvia / Tabletop Linoleum: Sweden / Tabletop Solid Oak & Dark Oiled Oak: Bosnia & Herzegovina
Assembly Required	Yes
Description	A natural focal point of the home, the Midst Table is a generous, round dining table where friends and family gather — and there is always room to squeeze in one more guest. Its refined silhouette is simple yet characteristic, enhanced by distinct detailing and contrasting materiality; matte solid oak or linoleum on a monolithic base made of spun steel with a durable high gloss finish.
Material	Table top in lacquered MDF with a linoleum top or FSC™ (FSC-CO28824) certified solid oak, treated with either a white pigmented or dark oil. Base in powder-coated steel with a protective rubber ring under the base.
Cleaning & Care	<p>Linoleum: Clean the tabletop with a damp cloth. If necessary, only use a mild detergent or washing-up liquid, never concentrated. Always wipe with a dry cloth afterward. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away. For linoleum versions, linoleum care is recommended 2-3 times a year for optimum saturation of the natural material. Clean base with a microfiber cloth to avoid scratching the high gloss lacquer. If necessary use a small amount of mild dish soap on the cloth.</p> <p>Solid Oak & Dark Oiled Oak: Upon receiving your table, we recommend that the table top and bottom is treated with a special oak wood oil, improving its resistance to stains and fluids. We also recommend that you continue caring for the product by repeating this treatment 2-3 times a year. For products in Solid Oak, we recommend using a tabletop oil with a small amount of white pigment, suitable for food applications*. For products in Dark Oiled Oak, we recommend using a smoked tabletop oil, suitable for food applications*.</p> <p>Avoid placing the table in the immediate distance of a heat source. Do not place hot or wet objects directly on the table, as they can leave a mark on the table top. Metal objects can leave a mark if left on the table for a longer period of time.</p> <p>Spilling should immediately be removed to avoid discoloring. Clean the tabletop often and carefully with a soft and dry cloth following the wood grain pattern. The product should not be exposed to excessive humidity, heat or direct sunlight. Clean base with a microfibre cloth to avoid scratching the high gloss paint. If necessary, use a small amount of mild dish soap on the cloth.</p> <p>*Please contact customer care@muuto.com for recommendations on specific oak wood oils available in your region.</p>

NERD CHAIR SERIES

"The Nerd Chair Series takes a playful approach to the archetypical wooden chair through its innovative integration of seat and back, adding to the design's unique expression. While its details are contemporary and unique in their own way, the overall expression of the design ties in with the honest values of Scandinavian design. The Nerd Chair Series brings new perspectives to Scandinavian design by combining the traditional material of wood with a simple yet eccentric design language, making for a timeless chair that adds character to any space."

OUTLINE SOFA SERIES

"With the Outline Sofa Family, we wanted to create a visually light and elegant design with lots of comfort, translating aspects of modern architecture into the design through juxtaposing elements. Outline is created with slim proportions for a simple and elegant look, complemented by its generous seat and slender legs. There's a calm serenity about the Outline Sofa Family, having a soft and deep seat with clean lines and a strong architectural presence, brought forth by its overlapping forms that bring a refined touch to the expression of the design."

— Anderssen & Voll

Designed by	Anderssen & Voll / 2016
Environment	Indoor
Country of Production	Lithuania or Slovakia
Assembly Required	Yes – Mount legs. Please note that the Highback Sofas 1-Seater, 2-Seater, 3-Seater, Work and Cabin are not preassembled.
Description	The Outline Sofa Family adds new perspectives to the classic Scandinavian design sofas of the 1960's, marrying the ideals of simplicity and function into one. With the design taking its name from its strong outline of a sofa, the Outline Sofa Family is clean and elegant on the outside with a deep seat and soft cushioning on its inside. The Outline Sofa Family has an expression that is at once elegant yet timeless, elevated by its lines referencing architectural shapes alongside its curved armrests, giving the design a distinct appearance across various sizes and variants.
Material	Black powder coated or polished aluminum base. Wood and steel construction. Cold foam filling. All textiles from Kvadrat or Rossini della Quercia. Leather from selected premium leather suppliers. The table unit for the Outline Highback Cabin and Outline Highback Work is made from robust MDF board with matte laminate (black ABS edges).
Cleaning & Care	Remove non-greasy stains by carefully dabbing with a lint-free cloth wrung out in clean, warm water. If necessary, clean by dabbing with soapy water. Visit Kvadrat.com for further information on cleaning textiles. For leather versions, clean leather with a dry cloth regularly. Treat the leather when needed using only special leather treatment products.

Description	An elegant side table with two planes, connected through a graphic leg for a modern expression. Pull the Relate Side Table up to a sofa to use as a hot desk or place it in any space to hold various objects.
Material	Black, Off-White and Blue Grey with linoleum finish. Laminated Oak Veneer. Solid Oak and Solid Smoked Oak. Frame in powder coated steel.
Cleaning & Care	<p>Laminate & Linoleum: Clean the table with a damp cloth. If necessary, only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away. For linoleum versions, linoleum care is recommended for optimum saturation of the natural material 2-3 times a year. It is recommended to clean linoleum versions with a damp cloth and a pH neutral cleaner and wipe dry to remove any residues.</p> <p>Oak Veneer: Clean the table with a damp cloth. If necessary, only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away.</p> <p>Solid Oak & Solid Smoked Oak: Upon receiving your table, we recommend that table top and bottom is treated with a special oak wood oil, improving its resistance to stains and fluids. We also recommend that you continue caring for the product by repeating this treatment 2-3 times a year. For products in Solid Oak, we recommend using a tabletop oil with a small amount of white pigment, suitable for food applications*. For products in Smoked Oak, we recommend using a smoked tabletop oil, suitable for food applications*.</p> <p>Avoid placing the table in the immediate distance of a heat source. Do not place hot or wet objects directly on the table, as they can leave a mark on the table top. Metal objects can leave a mark if left on the table for a longer period of time.</p> <p>Any spill should immediately be removed to avoid discoloring. Clean the table top often and carefully with a soft and dry cloth following the wood's grain patterns.</p> <p>*Please contact customer@muuto.com for recommendations on specific oak wood oils available in your region.</p>

VISU CHAIR SERIES

"The idea for the Visu Chair Family was to create an elegantly simple interpretation of the archetypal plywood chair. I wanted for the design to have a subdued and timeless character that would add feelings of modern familiarity to any room together with a comfortable seat in form-pressed veneer. Designing the chair as a family that were all aesthetically linked yet could be used for different functions was a study in adapting a design to its surroundings and a process that lasted nearly two years. The Visu Chair Family is a new perspective on the traditional wooden chair, echoing the ideas of Scandinavian design together with a modern expression."

BEAM TABLE LAMP

"The idea for the Beam Table Lamp came while renovating my childhood home. I had made a shelf to use as divider between the hallway and living room and needed a lamp that could at once throw light out into the living room and down the hallway. The Beam Table Lamp mimics a single ray of light that travels through a round tube with its dimmer allowing the user to change the volume of light omitted from both ends of the cylinder shape. Tweak the design to your personal needs through its rotating base and sleek body of anodized aluminum, whether it be as direct lighting or for an ambient glow. With the Beam Table Lamp, you can alter the volume of light omitted, change its direction by the turn of its base and place it on any shelf, table or windowsill for a new perspective on modern lighting."

CONTROL TABLE LAMP

"The Control Table Lamp is a unique and playful lamp with references to hi-fi and industrial machinery. The light and dimmer is controlled by a switch, referencing volume controls, and is an inviting and simple way of interacting with the user. While designing the lamp, we were inspired by the idea of displaying the different lamp components on a serving plate—almost as a still life. It was a pragmatic approach to making a lamp by the simplest means, a reduced design beyond reduction."

EASE PORTABLE LAMP

"I wanted the Ease Portable Lamp to have a remarkable quality of light, striking a versatile balance between atmospheric and functional light — after all, that is the wonderful thing about a portable lamp — you can bring a distinct ambience to literally anywhere. I landed on the idea of the top and bottom gently touching, softly meeting each other. There is a sense of lightness to it. This feature allows a large surface to emit light, while the flared bottom firmly stabilizes it. It is these details that give the lamp a sort of human quality, making it a reliable friend."

Description	Inspired by shapes of traditional table lamps, the Ease Portable Lamp transforms this typology into a carryable size, suitable to take wherever. Ease offers a high-quality dimmable, no-glare light with three levels, striking a balance between atmospheric and functional light. The design has a distinct lightness to it, with the top and bottom gently touching. A slightly flared bottom mimics the lip of a vase in a grounding gesture that allows the base to be slimmer and easier to grab. Ease Portable Lamp is a humble friend with a strong character that works alone or in repetition in any setting; from the bedside, reading nook and home office to the restaurant or café table, co-working space or library.
Material	Battery-powered, dimmable and portable lamp with 8 hours of battery life on 100% intensity, 16 hours on 50% intensity and 29 hours on 25% intensity. Body and lampshade made in injection-molded ABS plastic, with an integrated LED light source. Diffuser in opal acrylic. Charging dock made in injection-molded ABS plastic with USB-C cable. The lamp is protected and tested against solid foreign objects, such as dust ingress, as well as liquids, such as water splashes, from all angles.

FLUID PENDANT LAMP

"We wanted to give the lamp a form with a certain softness, towards a more natural language and further removed from pure geometry. Fascinated by the way that surface tension governs the curvature of a resting water droplet, we have tried to capture its essence. The subtle irregularity of the Fluid Pendant Lamp means that their silhouette gently changes depending upon the viewing angle. It also brings a greater light intensity to the lamp's underside—just where you need it."

FOCUS TABLE LAMP

"The Focus Table Lamp is an everyday object with a sculptural appeal and an apparent function: it is a lamp and a pedestal where your favorite small objects may be placed and highlighted. Working with the appearance and the delicate dimensions, I tried to give the lamp a unique personality characterized by an embracing and protective nature. The focus is on the pedestal and the object which is placed on it. Therefore, all components are fixed in position. Personally, the pedestal, with a cone of ambient light, solved my problem of misplacing my keys. Now I always know where they are."

PITON PORTABLE LAMP

"My idea for Piton started from the desire to create a rechargeable portable lamp that could be adapted in a multitude of ways while functioning in various environments. Piton takes its name from a climbing apparatus that is jammed into cracks and crevices on mountainsides to which the climber can attach hooks, tools and ropes while rigging it in various positions; an element that is also present in the design of the Piton Portable Lamp."

RIME PENDANT LAMP

"Designing simple things is often one of the hardest things to do. We wanted to create a simple lamp with a glass shape, giving it a soft expression while making its top and pendant tube as subtle as possible. We were inspired by the shape of acorns for the gentle lines of the pendant while hinting towards the shaded expression of ice and rime for the glass of the design, allowing for the light to shine slightly through with a refined touch. The Rime Pendant Lamp brings a timeless yet modern perspective to the archetypal light through its translucent shade and graphic form."

ATTACH COAT HOOK

"The Attach Coat Hook arose from an interest in the meeting of two elementary shapes: a cylinder and a rectangular box. From there, the design was created by combining a simple wood cylinder with an anodized aluminum form, joining together industrial and natural materiality. With its contrasting elements, the Attach Coat Hook brings a refined yet sturdy perspective to the modern coat hook."

AVAIL COAT RACK

“The emphasis for the Avail Coat Rack was not necessarily to create something different but rather something better—a design that will last for years and give satisfaction in daily life. Through its hooks that can be continuously rearranged while adding notes of color to the warm touch of its oak surface, the Avail Coat Rack evolves with our changing daily needs and reflects our perspectives with its small plateau upon which smaller objects can be placed.”

COIL COAT RACK

"Design often finds its function first and its form second. With the Coil Coat Rack, this process was reversed. While I was modeling some ideas by forming paper into different shapes, I realized that the curling form of a rolled-up paper could be combined with hooks and be ideal for a coat rack. With its soft lines and sliding hooks that can be adjusted to one's individual preferences, the Coil Coat Rack is a functionally inviting perspective on the archetypal coat rack."

— Lars Tornøe

Description	The Coil Coat Rack finds its new perspective through its coil-shaped form along with its hooks that are brought into play for a simple yet characterful element that breathes function into the design. The design allows for the user to buy additional hooks if needed to make the Coil Coat Rack uniquely theirs. The shape of the design is inspired by the curled-up form of rolled paper.

FOLDED SHELVES

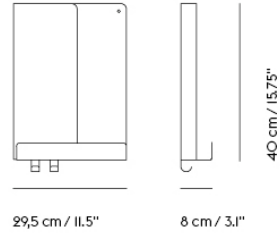

"Inspired by the shadow-play of layers, Folded is based on a seemingly simple bending technique of a single sheet of metal to create pockets which hold and separate your items. Featuring a subtle bolt and hooks for hanging objects, it is a versatile wall mount that can be used in both a practical and a decorative manner—suitable for organizing anything from mail to books, perfumes or spices, or just displaying your favorite belongings, in the hallway, bathroom, bedroom or kitchen."

— Johan Van Hengel

FRAMED MIRROR

"We wanted to create a mirror that was more than merely a reflective surface. Framed is a new perspective to the classic framed mirror; it is a decorative design piece that leads your thoughts to installation art. It adds not only the functionality of a mirror to your home, but with its depth, organic shape and tone-in-tone color, it is almost perceived as an art object on the wall. The Framed Mirror can hang beautifully on your walls alone or combined with other sizes and colors."

— Anderssen & Voll

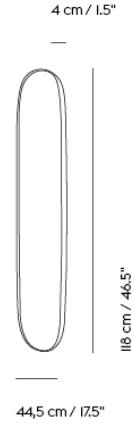

Designed by	Anderssen & Voll / 2016
Environment	Indoor
Country of Production	Vietnam
Description	Made from powder coated steel frames with colored mirror glass, the Framed Mirror is a gently artistic interpretation of the archetypal mirror. Though still functioning as reflecting glass, the colors, shapes and its ability to be arranged in groups gives the mirror a distinct character.
Material	A steel plate is worked through three rounds to shape the mirror's frame. The surface is then powder lacquered using a highly durable acrylic lacquer. Lastly, mirror glass is gently installed, to create the little gap between the mirror's frame and mirror glass.
Cleaning & Care	Clean mirror glass using a mild glass spray and a soft dry cloth.

MINGLE CUSHION

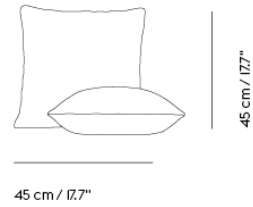

"My idea was to create a series of cushions based on the simple intertwinement of color and textile. The process was equally straightforward and complex. It turned out to be an exciting journey through the world of color and texture and in the end we found a combination where the two mingle well and complement each other. The Mingle family, being a very inclusive group, also love to mingle on your sofa."

RESTORE SERIES

"I wanted for the Restore Series to have a humble character, allowing for it to easily fit into any environment. With its felt material made using fibers from recycled plastic bottles, the Restore Series has a curious and inviting expression while its corner slits bring a distinct look and added functionality to the design."

— Mika Tolvanen

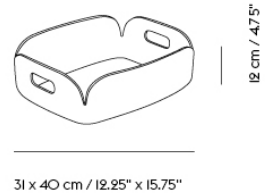

Designed by	Mika Tolvanen / 2009
Environment	Indoor
Country of Production	China
Description	Made from a felt made of recycled plastic bottle fibers, the Restore Series is a functional and versatile storage unit that can be used for almost any object from laundry to blankets to children's toys. The Restore Series comes in a variety of colors and offers a textural, quirky addition to any home or professional space.
Material	The material is PET felt fibers. A percentage of the product comes from recycled plastic bottles, which are granulated, heated and blown like little fibers that are subsequently dyed. The fibers are worked together like mats, which can be pressed over heat-influenced forms that enables the material to maintain its shape.
Cleaning & Care	Vacuum. If necessary use moist cloth.

SWAY THROW

"Sway is a throw which, with its simple visual expression and clean, honest materials, will last many years. The throw's timeless appearance makes it adaptable for many different surroundings and its refined, high quality wool places it between product and apparel. Sway Throw can easily be packed and used as a shawl when taken on a cool summer's night. While in use, the throw adopts a three dimensional form which has inspired me to twist the simple pattern into diagonal curves—like a sail drawing in the wind."

TILE CUSHION

"The uniquely woven Tile Cushion is the result of combining profound knowledge about textile craftsmanship with great design experience. The complex weaving technique creates a pattern, appearing monochrome from a distance yet rich on details up close, setting it aside from a merely dyed pattern. The textile is woven in 100% wool—exclusively made in Norway for Muuto by Gudbrandsdalen."

— Anderssen & Voll

Designed by	Anderssen & Voll / 2016
Environment	Indoor
Country of Production	Slovenia
Description	The Tile Cushion is made in collaboration with the skilled craftspeople of Norwegian textile mill Gudbrandsdalens Uldvarefabrik, marrying the Scandinavian principles of quality and design. With an eye-catching, textural pattern and 100% wool outer jacket, the Tile cushion is a geometric yet subtle item that fits into any space.
Material	Textile in 100% wool. Filling in a mix of feather and polyester. The weaving process is specially developed for the Tiles cushions in cooperation between Gudbrandsdalen, Anderssen & Voll and Muuto. Using a colored double weaving on top of a black bottom layered weaving and binding down the three colors, nuances are made in the textile.
Cleaning & Care	Remove stains using cold water. Wash on a gentle 30 degrees wool program and hang to dry.

One kilo of pure new wool generates 9 kilograms of carbon dioxide when produced while processing one kilo of recycled wool only generates 0.5 kilograms of carbon dioxide. Furthermore, recycled wool has a positive environmental impact due to lessened water consumption and lower energy consumption.
