Prices valid from 1<sup>st</sup> January 2023

# SENAB

## Färgmarkeringar och/eller symboler för hållbara alternativ i prislistan:

### Mörkgrön markering eller symbol

Miljömärkt produkt – Möbler där hela den sammansatta varan har en typ 1 miljömärkning enligt ISO 14024 med Svanen, Möbelfakta, EU Ecolabel eller annan likvärdig märkning.

### Ljusgrön markering eller symbol

Hållbarhetsmärkt produkt eller beståndsdel – Möbler där hela eller delar av den sammansatta varan är hållbarhetsmärkt, exempelvis med FSC, EU Ecolabel eller OEKO-TEX®. Leverantören ska kunna ge mer detaljerad information om vilka delar eller variationer som är hållbarhetsmärka vid begäran.

### Orange markering eller symbol

Klimatberäknad produkt – Produkt med dokumenterad miljövarudeklaration (EPD) enligt ISO 14025.

### Lila markering eller symbol

Produkt med återvunnet eller förnybart material (enligt definitionerna i ISO 14021). Leverantören ska kunna ge information om andel (%) återvunnet och/eller förnybart (biobaserat) vid begäran. Märkning av återvinningsbart material utgår.

### Blå markering eller symbol

Demonterbar produkt – Produkt som är demonterbar till olika komponenter och beståndsdelar som i första hand möjliggör återbruk och i andra hand materialåtervinning när produkten nått sin fulla livslängd. Produkten ska vara designad för renovering, det vill säga att det ska vara enkelt att reparera och byta ut moduler, komponenter och beståndsdelar som slits över tid. Exempelvis ska ytskikt, som bordsskivor, textil och stoppning kunna tas isär, avlägsnas och ersättas med hjälp av vanligt förekommande manuella verktyg, ej specialverktyg. Enklare reparationer och utbytesarbeten ska kunna utföras av en lekman. Om det krävs fackmanakunskap för mer avancerade arbeten ska det framgå av anvisningarna som leverantören ska kunna ge vid begäran. Anvisningarna ska innehålla en sprängskiss, steg för steg beskrivning inklusive vilka verktyg som krävs samt hur möbelns ingående delar bör källsorteras.

## Areas of use

Some products are recommended for domestic use only. Such information is noted in the description of materials.

Special requirements and standards apply for furniture that will be subject to intensive usage in public spaces, such as educational institutions, fast food restaurants or event venues. Please ask our sales representatives about the suitability of the respective Vitra product for these kinds of applications before placing an order.

All products in the **Quick Ship** programme are identified in the price list by a lorry symbol.

All measurements are pursuant to EN 1335-1:2000  
 More detailed information is found in the chapter 'Explanation of measurements'.

## Office swivel chair in accordance with EN 1335.

**Backrest and seat:** backrest in polyamide, coated with polyurethane foam. Backrest height adjustable up to 5 cm using a quick release lever. Seat with contouring on the front edge, consisting of a polyamide seat plate and polyurethane foam. Covers in fabric or leather, freely stretched over the surfaces of the seat and backrest.

**Armrest/back bracket:** loop frame made of polyamide that simultaneously serves as the armrest structure, backrest support and extended arm of the mechanical unit.

**Mechanical unit:** the synchronised mechanism can be locked in the upright position. Equipped as standard with seat height and seat depth adjustment. Plastic in the colour deep black.

**Base:** five-star base in polyamide (deep black) with double castors (Ø 60 mm, basic dark).

Alberto Meda, 2016

AM Chair without armrests

AM Chair with 2D armrests

AM Chair with 3D armrests

All measurements are pursuant to EN 1335-1:2000  
 More detailed information is found in the chapter 'Explanation of measurements'.

**Office swivel chair in accordance with EN 1335, Ergonomic Seal of Approval (LGA Nuremberg).**

**Seat mechanism:** ProMotion mechanism, lockable in upright position. Synchronised mechanism with automatic weight adjustment and manual fine tuning of backrest resistance via 180° rotation. Equipped as standard with seat height and seat depth adjustment. Optionally available with or without spontaneous forward tilt (can be disengaged).

**Seat:** seat plate made of polyamide; contoured seat cushion made of polyurethane foam; fabric cover.

**Back:** mesh backrest in LightNet, stretched over frame; fabric backrest in Plano (reverse side in Verso fabric, colour sierra grey). Polyamide backrest frame in deep black. Height-adjustable backrest as a standard feature.

**Armrests:** 2D armrests with adjustable height and width or 3D armrests with adjustable height, width and depth. Armrest supports in polyamide with polyurethane pads, both in deep black.

**Base:** five-star base in polyamide (deep black) or in powder-coated aluminium (deep black). Equipped with double castors (Ø 60 mm).

# ID Chair Concept

Antonio Citterio, 2010/2021

---

---

## ID Chair Concept

ID Chair Concept is a chair system that can be configured based on the user's individual needs and preferences and gives the office a subtly elegant design and bright colours.

The office swivel chair range is made up of many components to satisfy a wide number of requirements in terms of aesthetics, materials, purpose and price. The right ID Chair can be chosen based on the following models:

- **ID Cloud** with membrane structure backrest
- **ID Air** with perforated plastic backrest.
- **ID Mesh** with padded mesh backrest.
- **ID Soft** with classic upholstered backrest.
- **ID Soft L** with high backrest.
- **ID Trim** with narrow backrest.
- **ID Trim L** with high backrest.

Starting with these models, different ID Chairs can be configured by selecting from the diverse mechanisms, seats, armrests, bases, frame colours and covers.

## Office swivel chair with 2D or 3D armrests in accordance with EN 1335, Ergonomic Seal of Approval (LGA Nuremberg).

**Seat mechanism:** FlowMotion mechanism, lockable in upright sitting position. Seat mechanism matches the frame colour (basic dark or soft grey). Optionally with or without synchronous forward tilt (can be disabled) or seat depth adjustment. Individual adjustment of backrest resistance and forward tilt.

**Backrest:** height-adjustable backrest with a three-part construction: frame in polyamide, membrane in TPE and knit cover. Back connection in basic dark or soft grey. Knit cover in Duo Knit.

**Armrests:** 2D armrests with adjustable height and width or 3D armrests with adjustable height, width and depth and 360° swivel function. Armrest supports in aluminium, polished or powder-coated in the colours basic dark or soft grey (to match the frame colour). Armrest sleeves in polyamide are matched to the frame colour (basic dark or soft grey). With PU-foam-free (F) pads in basic dark (for frame colour basic dark) or dim grey (for frame colour soft grey). Optionally available with ring armrests for use in conference settings, made of die-cast aluminium, polished or powder-coated in basic dark or soft grey (to match the frame colour).

**Seat:** polyurethane foam padding. Optional contour seat or PU-foam-free formfit (F) seat. Seat cover in woven fabric or 3D spacer fabric.

**Base:** five-star base in polyamide (basic dark) or die-cast aluminium, polished or powder-coated in basic dark or soft grey (to match the frame colour), with double castors (Ø 60 mm) or glides.

**Conference version:** conference chair (swivel) with four-star base made of die-cast aluminium, polished or powder-coated in basic dark or soft grey (to match frame colour) on glides in accordance with EN 16139. FlowMotion conference mechanism (no forward tilt, no seat depth adjustment) with individual adjustment of backrest resistance; fixed seat height with shock-absorbing seat suspension for added comfort.

## Office swivel chair with 2D or 3D armrests in accordance with EN 1335, Ergonomic Seal of Approval (LGA Nuremberg).

**Seat mechanism:** FlowMotion mechanism, lockable in upright sitting position. Seat mechanism matches the frame colour (basic dark or soft grey). Optionally with or without synchronous forward tilt (can be disabled) or seat depth adjustment. Individual adjustment of backrest resistance and forward tilt.

**Backrest:** perforated plastic backrest in polypropylene (basic dark or soft grey).

**Armrests:** 2D armrests with adjustable height and width or 3D armrests with adjustable height, width and depth and 360° swivel function. Armrest supports in aluminium, polished or powder-coated in the colours basic dark or soft grey (to match the frame colour). Armrest sleeves in polyamide are matched to the frame colour (basic dark or soft grey). With PU-foam-free (F) pads in basic dark (for frame colour basic dark) or dim grey (for frame colour soft grey). Optionally available with ring armrests for use in conference settings, made of die-cast aluminium, polished or powder-coated in basic dark or soft grey (to match the frame colour).

**Seat:** polyurethane foam padding. Optional contour seat or PU-foam-free formfit (F) seat. Seat cover in woven fabric or 3D spacer fabric.

**Base:** five-star base in polyamide (basic dark) or die-cast aluminium, polished or powder-coated in basic dark or soft grey (to match the frame colour), with double castors (Ø 60 mm) or glides.

**Conference version:** conference chair (swivel) with four-star base made of die-cast aluminium, polished or powder-coated in basic dark or soft grey (to match frame colour) on glides in accordance with EN 16139. FlowMotion conference mechanism (no forward tilt, no seat depth adjustment) with individual adjustment of backrest resistance; fixed seat height with shock-absorbing seat suspension for added comfort.

# ID Mesh

Antonio Citterio, 2010/2021

ID Mesh with 2D armrests

ID Mesh with ring armrests

ID Mesh with 3D armrests and headrest

All measurements are pursuant to EN 1335-1:2000  
 More detailed information is found in the chapter 'Explanation of measurements'.

**Office swivel chair with 2D or 3D armrests in accordance with EN 1335, Ergonomic Seal of Approval (LGA Nuremberg). The version equipped with the FlowMotion mechanism with forward tilt and seat depth adjustment complies with BS 5459-2 (24-hour test).**

**Seat mechanism:** FlowMotion mechanism, lockable in upright sitting position. Seat mechanism matches the frame colour (basic dark or soft grey). Optionally with or without synchronous forward tilt (can be disabled) or seat depth adjustment. Individual adjustment of backrest resistance and forward tilt.

**Backrest:** frame in polyamide (basic dark or soft grey). With height-adjustable lumbar support. Backrest cover in Diamond Mesh 3D spacer fabric (mesh look) or Silk Mesh (solid look). For Silk Mesh in the colour soft grey, the reverse side is in soft grey. For Silk Mesh in the colours nero and asphalt, the reverse side is in nero. For Silk Mesh in the colours olive green, smoke blue and dim grey, the reverse side matches the frame colour (soft grey or nero).

**Armrests:** 2D armrests with adjustable height and width or 3D armrests with adjustable height, width and depth and 360° swivel function. Armrest supports in aluminium, polished or powder-coated in the colours basic dark or soft grey (to match the frame colour). Armrest sleeves in polyamide are matched to the frame colour (basic dark or soft grey). With PU-foam-free (F) pads in basic dark (for frame colour basic dark) or dim grey (for frame colour soft grey). Optionally available with ring armrests for use in conference settings, made of die-cast aluminium, polished or powder-coated in basic dark or soft grey (to match the frame colour).

**Seat:** polyurethane foam padding. Optional contour seat or PU-foam-free formfit (F) seat. Seat cover in woven fabric or 3D spacer fabric.

**Base:** five-star base in polyamide (basic dark) or die-cast aluminium, polished or powder-coated in basic dark or soft grey (to match the frame colour), with double castors (Ø 60 mm) or glides.

**Accessories:** headrest in polyamide (basic dark or soft grey) with adjustable angle and height, retrofit option. With polyurethane pad in basic dark (for headrest in basic dark) or dim grey (for headrest in soft grey). Clothes hanger in polyamide (basic dark or soft grey), retrofit option (max. weight load: 2 kg). Headrest and clothes hanger can be used separately or combined.

**Conference version:** conference chair (swivel) with four-star base made of die-cast aluminium, polished or powder-coated in basic dark or soft grey (to match frame colour) on glides in accordance with EN 16139. FlowMotion conference mechanism (no forward tilt, no seat depth adjustment) with individual adjustment of backrest resistance; fixed seat height with shock-absorbing seat suspension for added comfort.

## ID Trim

Antonio Citterio, 2010/2021

All measurements are pursuant to EN 1335-1:2000

More detailed information is found in the chapter 'Explanation of measurements'.

**Office swivel chair with 2D or 3D armrests in accordance with EN 1335, Ergonomic Seal of Approval (LGA Nuremberg). The version equipped with the FlowMotion mechanism with forward tilt and seat depth adjustment complies with BS 5459-2 (24-hour test).**

**Seat mechanism:** FlowMotion mechanism, lockable in upright sitting position. Seat mechanism matches the frame colour (basic dark or soft grey). Optionally with or without synchronous forward tilt (can be disabled) or seat depth adjustment. Individual adjustment of backrest resistance and forward tilt.

**Backrest:** frame in polyamide (basic dark or soft grey). Optional height-adjustable lumbar cushion. Cover in fabric or leather.

**Armrests:** 2D armrests with adjustable height and width or 3D armrests with adjustable height, width and depth and 360° swivel function. Armrest supports in aluminium, polished or powder-coated in the colours basic dark or soft grey (to match the frame colour). Armrest sleeves in polyamide are matched to the frame colour (basic dark or soft grey). With PU-foam-free (F) pads in basic dark (for frame colour basic dark) or dim grey (for frame colour soft grey). Optionally available with ring armrests for use in conference settings, made of die-cast aluminium, polished or powder-coated in basic dark or soft grey (to match the frame colour).

**Seat:** polyurethane foam padding. Optionally available with contoured seat. Seat and back covers in fabric or leather. Leather covers are not recommended for chairs with forward tilt, since a leather surface might cause users to slide off the seat.

**Base:** five-star base in polyamide (basic dark) or die-cast aluminium, polished or powder-coated in basic dark or soft grey (to match the frame colour), with double castors (Ø 60 mm) or glides.

**Accessories:** clothes hanger in polyamide (basic dark or soft grey), max. weight load: 2 kg.

**Conference version:** conference chair (swivel) with four-star base made of die-cast aluminium, polished or powder-coated in basic dark or soft grey (to match frame colour) on glides in accordance with EN 16139. FlowMotion conference mechanism (no forward tilt, no seat depth adjustment) with individual adjustment of backrest resistance; fixed seat height with shock-absorbing seat suspension for added comfort.

## ID Trim L

Antonio Citterio, 2010/2021

ID Trim L with 3D armrests and clothes hanger

ID Trim L with ring armrests

ID Trim L with ring armrests

All measurements are pursuant to EN 1335-1:2000  
 More detailed information is found in the chapter 'Explanation of measurements'.

Office swivel chair with 2D or 3D armrests in accordance with EN 1335, Ergonomic Seal of Approval (LGA Nuremberg). The version equipped with the FlowMotion mechanism with forward tilt and seat depth adjustment complies with BS 5459-2 (24-hour test).

**Seat mechanism:** FlowMotion mechanism, lockable in upright sitting position. Seat mechanism matches the frame colour (basic dark or soft grey). Optionally with or without synchronous forward tilt (can be disabled) or seat depth adjustment. Individual adjustment of backrest resistance and forward tilt.

**Backrest:** high backrest with integrated, height-adjustable headrest. Backrest frame in polyamide (basic dark or soft grey). Optional height-adjustable lumbar cushion. Cover in fabric or leather. Headrest for leather upholstery in the corresponding leather colour; for fabric upholstery, headrest covered in dim grey leather or nero leather.

**Armrests:** 2D armrests with adjustable height and width or 3D armrests with adjustable height, width and depth and 360° swivel function. Armrest supports in aluminium, polished or powder-coated in the colours basic dark or soft grey (to match the frame colour). Armrest sleeves in polyamide are matched to the frame colour (basic dark or soft grey). With PU-foam-free (F) pads in basic dark (for frame colour basic dark) or dim grey (for frame colour soft grey). Optionally available with ring armrests for use in conference settings, made of die-cast aluminium, polished or powder-coated in basic dark or soft grey (to match the frame colour).

**Seat:** polyurethane foam padding. Optionally available with contoured seat. Seat and back covers in fabric or leather. Leather covers are not recommended for chairs with forward tilt, since a leather surface might cause users to slide off the seat.

**Base:** five-star base in polyamide (basic dark) or die-cast aluminium, polished or powder-coated in basic dark or soft grey (to match the frame colour), with double castors (Ø 60 mm) or glides.

**Accessories:** clothes hanger in polyamide (basic dark or soft grey), max. weight load: 2 kg.

**Conference version:** conference chair (swivel) with four-star base made of die-cast aluminium, polished or powder-coated in basic dark or soft grey (to match frame colour) on glides in accordance with EN 16139. FlowMotion conference mechanism (no forward tilt, no seat depth adjustment) with individual adjustment of backrest resistance; fixed seat height with shock-absorbing seat suspension for added comfort.

## Maarten Van Severen, 1998

All measurements are pursuant to EN 1335-1:2000  
More detailed information is found in the chapter 'Explanation of measurements'.

**Seat shell:** integral skin polyurethane foam. Shell with upholstered effect, self-supporting on a tubular steel frame. Flexible backrest with integrated leaf springs.

**Base/stackability:** back legs in tubular steel, front legs in aluminium profile, powder-coated or chrome-plated. Stacking and non-stacking versions. Up to 10 chairs can be stacked on the floor, up to 20 chairs on a stacking trolley. Fitted with plastic glides for carpet or felt glides for hard floors.

All measurements are pursuant to EN 1335-1:2000  
More detailed information is found in the chapter 'Explanation of measurements'.

**Seat shell:** cantilever chair with seat shell made of integral skin polyurethane foam. Shell with upholstered effect, self-supporting on a tubular stainless steel frame. Flexible backrest with integrated leaf springs.

**Base:** stackable (max. 5 chairs) or non-stackable base in stainless steel with satin finish or powder coating. Fitted with plastic glides for carpet or felt glides for hard floors.

**Use:** suited for outdoor use.

**Note:** special additives retard the fading of colours due to UV radiation. However, if the chair is exposed to sunlight for prolonged periods, the colour may change over time. We recommend limited exposure to sunlight.

# Eames Fiberglass Chairs

## Charles & Ray Eames, 1950

All measurements are pursuant to EN 1335-1:2000  
More detailed information is found in the chapter 'Explanation of measurements'.

**Seat shell:** dyed-through, glass-fibre reinforced polyester (fibreglass). Just like the earliest models, today's fibreglass shells are also slightly transparent in some colours. Optionally available with a moulded foam seat cushion (screwed to the seat shell); cushion can be replaced by the Vitra service team.

**Base:** non-stacking four-legged tubular steel base. (DSX = Dining Height Side Chair X-Base)

DSX	Article no.	without VAT in SEK*	with VAT in SEK*

## Charles & Ray Eames, 1950

DAR, new height

DAR, new height

DAW, new height

All measurements are pursuant to EN 1335-1:2000  
More detailed information is found in the chapter 'Explanation of measurements'.

**Seat shell:** dyed-through polypropylene. All models are available with a seat cushion (screwed to the seat shell) or full upholstery. The fully upholstered version has moulded polyurethane foam padding covered in fabric, attached to the shell with a welted edge. Different shell and upholstery colours and various bases provide a multitude of possible combinations.

**Options:** the Eames Plastic Chair is available as a visitor chair, dining chair, rocking chair, swivel chair or in stacking versions and with ganging brackets for row seating. Beam-mounted shells are suited for use in waiting areas.

### Eames Plastic Armchair DAR

**Base:** wire base with cross struts, chrome-plated or powder-coated finish. The powder-coated version is suitable for outdoor use. (DAR = Dining Height Armchair Rod Base)

**Note:** special additives retard the fading of colours due to UV radiation. However, if the chair is exposed to sunlight for prolonged periods, the colour may change over time. We recommend limited exposure to sunlight.

### Eames Plastic Armchair DAW

**Base:** wooden base in various shades of maple or honey-toned ash, stained and lacquered finish. Steel rod cross struts in basic dark. (DAW = Dining Height Armchair Wood Base)

**Origin of wood:** ash (*Fraxinus excelsior*) and maple (*Acer platanoides*) from Western Europe and/or Poland.

# Eames Plastic Chairs

Charles & Ray Eames, 1950

## DSX, new height

All measurements are pursuant to EN 1335-1:2000  
More detailed information is found in the chapter 'Explanation of measurements'.

**Seat shell:** dyed-through polypropylene. All models are available with a seat cushion (screwed to the seat shell) or full upholstery. The fully upholstered version has moulded polyurethane foam padding covered in fabric, attached to the shell with a welted edge. Different shell and upholstery colours and various bases provide a multitude of possible combinations.

**Options:** the Eames Plastic Chair is available as a visitor chair, dining chair, rocking chair, swivel chair or in stacking versions and with ganging brackets for row seating. Beam-mounted shells are suited for use in waiting areas.

**Base:** non-stacking four-legged tubular steel base. The powder-coated version is suitable for outdoor use. (DSX = Dining Height Side Chair X-Base)

**Note:** special additives retard the fading of colours due to UV radiation. However, if the chair is exposed to sunlight for prolonged periods, the colour may change over time. We recommend limited exposure to sunlight.

HAL RE Tube Armrest

100/180 4'7"

HAL RE Tube Writing Tablet

180 7"

All measurements are pursuant to EN 1335-1:2000  
More detailed information is found in the chapter 'Explanation of measurements'.

**HAL RE Tube Armrest**

**Seat shell:** dyed-through, recycled polypropylene.

**Base:** four-legged tubular steel base, chrome-plated finish. Up to 6 chairs can be stacked on the floor or on a stacking trolley. Armrest colour matched to seat shell.

**HAL RE Tube Writing Tablet**

**Seat shell:** dyed-through, recycled polypropylene.

**Base:** four-legged base in tubular steel, with a foldable tablet desk in black, always mounted on the right (from a seated position). Up to 4 chairs can be stacked on the floor or on a stacking trolley.

**Glides:** colour matched to the small attachment parts for the seat shell, choice of white (except HAL Wood and HAL Ply Wood) or deep black. All bases fitted with glides for carpet; felt glides optionally available for hard floors.

HAL RE Armchair Wood

HAL RE Armchair Tube Stackable

HAL RE Armchair Studio

HAL RE Studio

HAL Ply Studio

All measurements are pursuant to EN 1335-1:2000

More detailed information is found in the chapter 'Explanation of measurements'.

## HAL RE Armchair Wood

**Seat shell:** dyed-through, recycled polypropylene, with optional seat cushion (screwed to the seat shell).

**Base:** non-stackable wooden base in natural or dark oak. Connecting element between shell and base in die-cast aluminium, powder-coated in dim grey.

**Origin of wood:** oak (*Quercus robur*) from Western Europe and/or Poland.

## HAL RE Armchair Tube Stackable

**Seat shell:** dyed-through, recycled polypropylene.

**Base:** stackable four-legged tubular steel base, chrome-plated finish or powder-coated in basic dark. Up to 6 chairs can be stacked on the floor or on a stacking trolley. Chairs with seat cushions should not be stacked, since stacking could damage the upholstery.

**Note:** as stacking can cause scratches, we recommend the chrome version for this purpose.

## HAL RE Armchair Studio

**Seat shell:** dyed-through recycled polypropylene, with optional seat cushion (screwed to the seat shell).

**Base:** five-star base in die-cast aluminium powder-coated in basic dark. Swivel mechanism with shock-absorbing seat suspension, height-adjustable.

## HAL RE Studio

**Seat shell:** dyed-through, recycled polypropylene.

**Base:** five-star base in die-cast aluminium powder-coated in basic dark. Swivel mechanism with shock-absorbing seat suspension, height-adjustable.

## HAL Ply Studio

**Seat shell:** plywood (USA).

**Base:** five-star base in die-cast aluminium powder-coated in basic dark. Swivel mechanism with shock-absorbing seat suspension, height-adjustable.

**Glides:** colour matched to the small attachment parts for the seat shell, choice of white (except HAL Wood and HAL Ply Wood) or deep black. All bases fitted with glides for carpet; felt glides optionally available for hard floors.

HAL RE Sledge

HAL RE Tube Stackable

HAL Ply Tube Stackable

HAL RE Tube Armrest

HAL RE Tube Writing Tablet

HAL Stacking dolly

All measurements are pursuant to EN 1335-1:2000  
 More detailed information is found in the chapter 'Explanation of measurements'.

**HAL Stacking Trolley**

HAL Stacking Trolley is suitable for use with all stackable HAL models, with the exception of HAL Soft Tube stackable.

**HAL seat cover**

The fabric covers for the seat shells of HAL and HAL Ply provide enhanced comfort. They are available in various colours and can be easily attached and removed.

**HAL seat cover:** 100% polyester/polyurethane; two reverse flaps fit over top of backrest and front of seat. Available in Plano fabric in predefined colours (see Price List supplement for upholstery materials). Additional colours in the Plano collection can be selected for orders of 6 or more seat covers.

**HAL row connector**

The HAL row connector is a linking element in two sizes: 100 mm for a smaller and 180 mm for a larger distance between the chairs. The number clips of the linking elements for the .03 also match the new HAL linking element.

For the following HAL chairs, the linking elements can be used in both sizes:

- HAL RE Tube Stackable
- HAL Ply Tube Stackable
- HAL RE Tube Armrest

For the following HAL chairs, only the linking element of 180 mm can be used:

- HAL RE Armchair Tube Stackable
- HAL RE Tube Writing Tablet

# Landi Chair

Hans Coray, 1938

vitra.

All measurements are pursuant to EN 1335-1:2000  
More detailed information is found in the chapter 'Explanation of measurements'.

**Seat shell:** seat shell in pressed aluminium sheeting with 91 punched holes, matte anodised surface.

**Base:** armrests and legs from bent aluminium profiles, with welded aluminium cross braces, matt anodised surface.

**Glides:** glides in light grey injection-moulded TPE.

**Applications:** ideal for outdoor use in both private and public spaces, such as home patios or balconies, restaurant terraces, open-air cafés etc.

**Note:** as in the original design, the Landi Chair can be stacked up to 6 units high. Vitra's re-edition of the classic stays true to the original while making the most of the latest technical possibilities. The anodised aluminium surface of the chair is durable and weather-resistant but may develop signs of wear and tear if the chairs are stacked.

Verner Panton, 1959/1960

All measurements are pursuant to EN 1335-1:2000  
More detailed information is found in the chapter 'Explanation of measurements'.

**Back, seat and base:** dyed-through polypropylene. Matt finish. Suited for outdoor use.

**Note:** special additives retard the fading of colours due to UV radiation. However, if the chair is exposed to sunlight for prolonged periods, the colour may change over time. We recommend limited exposure to sunlight.

**Safety information:** chair suitable for children aged 3 to 10 and for max. 34 kg (74 lbs). For children under the age of 3, there is an increased risk of a fall or of the chair tipping over. Do not let your child climb on the chair. Always make sure the chair is used in a safe place. A chair standing by a window, for example, may result in a child falling from a dangerous height.

# Tip Ton

Edward Barber & Jay Osgerby, 2011

All measurements are pursuant to EN 1335-1:2000  
More detailed information is found in the chapter 'Explanation of measurements'.

**Backrest, seat, base:** polypropylene.

**Glides:** polyethylene.

**Stacking:** Tip Ton can be stacked up to 4 chairs high on the floor, up to 11 on a stacking trolley. A stacking trolley is separately available.

**Outdoor use:** Tip Ton is suitable for outdoor use.

**Note:** special additives retard the fading of colours due to UV radiation. However, if the chair is exposed to sunlight for prolonged periods, the colour may change over time. We recommend limited exposure to sunlight.

# Belleville Table

Ronan & Erwan Bouroullec, 2015

Ø 796 31¼"

Ø 796 31¼"

Round table, Ø 796 mm

1060 41¾"

Square table, 750 x 750 mm

1600 63"

1600 63"

Rectangular table, 1600 x 750 mm

750 29½"

**Table top:** oak veneer in natural or dark oak (20 mm); melamine faced in white with smooth straight plastic edge (19 mm); or solid core material with black edge (12 mm) in the colours white or black. Solid core table top in black with anti-fingerprint coating.

**Base:** powder-coated with finely textured finish in deep black (RAL 9005). The height of the base including screw-in glides is 720 mm; the glides can be adjusted (max. extension 10 mm) for levelling on uneven floors.

**Applications:** table with top in solid core material and powder-coated base is suited for outdoor use. We recommend limited exposure to sunlight. The powder-coated bases are pre-galvanised.

**Table tops available in three materials:** melamine faced, white surface, smooth straight plastic edge (19 mm); light or dark oak veneer (Europe) (19 mm); solid core laminate in the colours white or black with black edge (12 mm). The solid core table top in black has an additional anti-fingerprint coating.

**Base:** powder-coated in basic dark (RAL 9004). The height of the base including screw-in glides is 715 mm; the glides can be adjusted (max. extension 10 mm) for levelling on uneven floors.

**Applications:** table with top in solid core laminate is also suited for outdoor use. We recommend limiting the table's exposure to sunlight. Pre-galvanised base.

# Eames Contract Tables

Charles & Ray Eames, 1968

**Table tops:** available in four materials: melamine faced white surface (25 mm) with smooth straight plastic edge in white; light or dark oak veneer (Europe) (25 mm) with straight veneer edge; solid core laminate in white (12 mm) with black edge; HPL (25 mm) with black edge.

**Base:** stable pedestal base, four-star legs in die-cast aluminium. Available in four versions: base polished or chrome-plated with column in basic dark (RAL 9004), all chrome or all powder-coated (textured finish) in deep black (RAL 9005) or white (RAL 9010). The height of the base including screw-in glides is 71 cm; the glides can be adjusted (max. extension 10 mm) for levelling on uneven floors.

**Applications:** the powder-coated base can be paired with a solid core table top for outdoor use.

# Airline

Norman Foster, 1998

**MW:** Factory assembled

**MB:** Assembled on site (assembly equipment on request)

## Possible configurations:

- single row
- double row (back to back)
- single row with alternately positioned seats facing front and back ("kissing position")

## Examples of orders for versions with integrated foam seat and back:

3 x P1	418 100 00 21	Integrated foam seat and back
1 x B3	418 101 00 03	base frame for four seating units
2 x F2	418 102 00 02	Leg with armrest
1 x TB	418 104 00 02	black compact laminate table unit

The configuration is defined from right to left in sitting position.

Sample configuration:

## Notes:

Only the TS component can be used as a side table.

With two side tables the minimum configuration consists of three seating units.

A maximum of four elements (seating/table unit TB) and two side table units (TS) can be mounted on a stretcher with two legs. A double bench is always made up of at least two double connections (L1 or L2).

**In the case of assembly ex works be sure to state the configuration sitting from right to left (see order example above).**

All measurements are pursuant to EN 1335-1:2000

More detailed information is found in the chapter 'Explanation of measurements'.

**Seat shell:** dyed-through polypropylene. All models are available with a seat cushion (screwed to the seat shell) or full upholstery. The fully upholstered version has moulded polyurethane foam padding covered in fabric, attached to the shell with a welted edge. Different shell and upholstery colours and various bases provide a multitude of possible combinations.

**Options:** the Eames Plastic Chair is available as a visitor chair, dining chair, rocking chair, swivel chair or in stacking versions and with ganging brackets for row seating. Beam-mounted shells are suited for use in waiting areas.

**Table unit:** black solid core material (560 x 430 mm).

**Base:** two-legged beam support in different lengths accommodates 2 to 5 chair shells or table units. T-beam: epoxy-coated in basic dark, polished aluminium legs. Fitted with plastic glides for carpet or anti-skid felt glides for hard floors.

# Eames Plastic Armchair RAR

Charles & Ray Eames, 1950

All measurements are pursuant to EN 1335-1:2000  
More detailed information is found in the chapter 'Explanation of measurements'.

**Seat shell:** dyed-through polypropylene. All models are available with a seat cushion (screwed to the seat shell) or full upholstery. The fully upholstered version has moulded polyurethane foam padding covered in fabric, attached to the shell with a welted edge. Different shell and upholstery colours and various bases provide a multitude of possible combinations.

**Options:** the Eames Plastic Chair is available as a visitor chair, dining chair, rocking chair, swivel chair or in stacking versions and with ganging brackets for row seating. Beam-mounted shells are suited for use in waiting areas.

## Eames Plastic Armchair RAR

**RAR base:** wire base with cross struts, chrome-plated or powder-coated, solid maple runners. (RAR = Rocking Armchair Rod Base)

**Origin of wood:** maple (*Acer platanoides*) from Western Europe and/or Poland.

Antonio Citterio, 2019

**Seat/body:** moulded polyurethane foam with plastic frame and integrated synchronised mechanism with locking device.

**Seat heights:** 415 mm (310 mm with applied load, measured in accordance with EN 1335-1:2000) or 465 mm (360 mm with applied load, measured in accordance with EN 1335-1:2000).

**Base:** four-star swivel base in die-cast aluminium, polished or powder-coated finish.

**Seat cushion:** chamber cushion filled with polyurethane foam lozenges and ball fibres.

**Back cushion and neck cushion:** chamber cushion filled with polyurethane foam cubes and a mix of goose feathers and down.

**Note:** Cushions should be regularly shaken and plumped to retain their original fullness and shape.

**Note:** The back shell, the understructure of the seat and ottoman, and the adjustment knob for backrest resistance are covered in Leather Forte (decorative split leather).

**Note:** The base version determines the finish of the other metal parts (mechanism control lever, cap on resistance adjustment knob).

**Note:** total height with headrest in highest position 1080 or 1130 mm.

**Ottoman:** MDF panel covered with polyurethane foam and polyester fleece; chamber cushion filled with polyurethane foam lozenges and ball fibres.

**Base:** non-swivel four-star base in die-cast aluminium, polished or powder-coated finish.

**Glides:** fitted with plastic glides for soft floors or felt glides for hard floors.

# HAL Lounge Chair

Jasper Morrison, 2021

HAL Lounge Chair with loose cushion

HAL Lounge Chair integrated cushion

HAL Lounge Chair Ottoman

All measurements are pursuant to EN 1335-1:2000

More detailed information is found in the chapter 'Explanation of measurements'.

**Chair/body:** fibreglass-reinforced plastic shell made from post-industrial recycled ABS plastic, encased in moulded polyurethane foam.

**Neck cushion filling:** ball fibres and siliconised fibres.

**Filling loose seat cushion:** polyurethane foam.

**Base:** natural oak or dark oak; connection between shell and base made of die-cast aluminium, powder-coated in dim grey.

**Seat heights:** armchair with loose seat cushion 420 mm (320 mm with applied load, measured in accordance with EN 1335-1:2000); armchair with integrated seat cushion 400 mm (320 mm with applied load, measured in accordance with EN 1335-1:2000).

**Ottoman:** plywood panel, polyurethane foam and polyester fibre.

**Base:** natural oak or dark oak, leg connection in fibreglass-reinforced plastic.

**Origin of wood:** oak (*Quercus robur*) from Western Europe and/or Poland.

**Glides:** plastic glides for carpet or felt glides for hard floors.

**Covers:** removable.

# Alcove Sofa

Ronan & Erwan Bouroullec, 2006/2021

---

**Body:** back and side panels with organic fibreboard core, connected with zip fasteners. Quilted cover with polyester-fibre padding.

**Frame:** tubular steel with chrome-plated finish or powder-coated (smooth).

**Legs:** steel, chrome-plated or powder-coated (smooth). Felt glides. Optionally equipped with lockable castors, in black plastic, soft version for protection of hard floors.

**Upholstery:** Alcove Sofas come in two different upholstery versions: soft ‚Lounge‘ upholstery for relaxed sitting and firmer ‚Work‘ upholstery for work-oriented sitting.

## Lounge Upholstery

**Structural frame:** metal frame with upholstery webbing.

**Seat cushion:** polyurethane foam and polyester fibre.

**Seat height:** 485 mm (325 mm with applied load, measured in accordance with EN 1335-1:2000).

**Back cushions and optional cushion set:** polyurethane chips and microfibre filling.

**Alcove Fauteuil and Love Seat:** incl. 1 back cushion.

**Alcove 2-Seater and 3-Seater:** incl. 2 back cushions.

**Optional cushion set for Love Seat:** 2 armrest cushions (600 x 400 mm) and 1 back cushion (710 x 220 mm).

**Optional cushion set for 2-Seater:** 2 armrest cushions (600 x 400 mm) and 2 back cushions (420 x 220 mm).

**Optional cushion set for 3-Seater:** 2 armrest cushions (600 x 400 mm) and 2 back cushions (710 x 220 mm).

**Covers:** removable.

## Work upholstery

**Structural frame:** metal frame with MDF base board.

**Seat/back cushions:** polyurethane foam and polyester fibre.

**Seat height:** 480 mm (385 mm with applied load, measured in accordance with EN 1335-1:2000).

**Covers:** removable.

## Alcove Cabin 2-Seater Highback

All measurements are pursuant to EN 1335-1:2000  
More detailed information is found in the chapter 'Explanation of measurements'.

**Structural frame:** tubular steel with chrome-plated finish or powder-coated (smooth), metal frame with MDF base board.

**Body:** back and side panels with organic fibreboard core, connecting panel with organic fibreboard core and metal structure, connected with zip fasteners. Quilted cover with polyester-fibre padding.

**Seat/back cushions:** polyurethane foam and polyester fibre.

**Seat height:** 480 mm (385 mm with applied load, measured in accordance with EN 1335-1:2000).

**Covers:** removable.

**Add-on table:** thickness 25 mm, high-density three-ply fine particle board with melamine coating and 3-mm ABS edge; or MDF board, powder-coated (textured finish); or oak veneer (sourced in Europe) with straight veneered edge 2.5-3.0 mm. Table legs in tubular steel, chrome-plated or powder-coated (smooth). Additional reinforcement in the connecting panel for secure attachment of the table top to the body.

**Table height:** 725 mm.

**Legs:** tubular steel, chrome-plated or powder-coated (smooth). Felt glides. Optionally equipped with lockable castors, in black plastic, soft version for protection of hard floors (only for units without add-on table).

Alcove Work Highback

Alcove Work Highback, tablet desk on left

All measurements are pursuant to EN 1335-1:2000  
More detailed information is found in the chapter 'Explanation of measurements'.

**Structural frame:** tubular steel with chrome-plated finish or powder-coated (smooth), metal frame with MDF base board.

**Body:** back and side panels with organic fibreboard core, connected with zip fasteners. Quilted cover with polyester-fibre padding.

**Seat/back cushions:** polyurethane foam and polyester fibre.

**Seat height:** 480 mm (385 mm with applied load, measured in accordance with EN 1335-1:2000).

**Box:** wooden carcass covered in polyurethane foam.

**Tablet desk:** thickness 25 mm, high-density three-ply fine particle board with melamine coating and 3-mm ABS edge; or MDF board, powder-coated (textured finish); or in oak veneer (sourced in Europe) with straight veneered edge 2.5-3.0 mm.

**Covers:** removable.

**Legs:** steel, chrome-plated or powder-coated (smooth). Felt glides. Optionally equipped with lockable castors, in black plastic, soft version for protection of hard floors (only for units without electrification).

Ronan & Erwan Bouroullec, 2021

---

**Body/structure:** back and side panels with organic fibreboard core and metal frame, connected with zip fasteners. Quilted covers with polyester-fibre padding. A zip fastener along the front edge of the side panels allows for attachment to the optional Alcove Plus Paravent. Metal frame for stabilisation of back and side panels and for support of table top.

**Covers:** removable.

**Table top:** thickness 25 mm, high-density three-ply fine particle board with melamine coating and 3-mm ABS edge; or MDF board, powder-coated (textured finish); or in oak veneer (sourced in Europe) with straight veneered edge 2.5-3.0 mm.

**Table height:** 740 mm.

**Cable basket:** steel wire, powder-coated in black, W 444 x D 114 x H 164 mm. Maximum number of baskets for large desk: 3 units; medium desk: 2 units; and small desk: 1 unit.

**Legs:** tubular steel, chrome-plated or powder-coated (smooth). Non-slip glides, levelling adjustment +/- 10mm.

**Electrification:** When 'table-top electrification' is selected, please configure the suitable Port 120 or 180 as required and order separately along with the feed cable, cable conduit, under-table electrification, distribution block etc. At least one Alcove Plus Desk cable basket is required per Port. The simplest electrification version does not require a Port; cables can be installed on the surface of the table between the table top and panel. The minimum requirement is one cable basket, one power outlet strip and one feed cable. These must also be ordered separately.

Alcove Plus Paravent

Alcove Plus Paravent one-piece

Alcove Plus Paravent two-piece

All measurements are pursuant to EN 1335-1:2000  
More detailed information is found in the chapter 'Explanation of measurements'.

**Paravent:** panel with organic fibreboard core. Quilted cover with polyester-fibre padding and a zip fastener on both sides for attachment to other Alcove Plus elements: Sofa, Love Seat, Work or Desk.

**Cover:** removable.

**Legs:** steel, chrome-plated or powder-coated (smooth). Felt glides.

**Note:** Alcove Plus Paravents are not designed for free-standing use. They must always be connected to another Alcove Plus element: Sofa, Work or Desk.

2 1/2-Seater - full backrest, one-piece seat cushion

3-Seater - full backrest, one-piece seat cushion

3 1/2-Seater - open on left, one-piece seat cushion

## Grand Sofà

**Body:** metal frame with moulded polyurethane foam.

**Seat cushions:** polyurethane foam core and chamber cushion (filled with polyurethane foam lozenges, latex and a mix of goose feathers and down).

**Lumbar cushion 60 x 30 x 6 cm:** filled with a mix of feathers/down and ball fibre.

**Back cushion 60 x 52 x 8 cm:** filled with a mix of feathers/down and ball fibre.

**Back cushion 70 x 60 x 8 cm:** filled with a mix of feathers/down and ball fibre – combination with neck cushion recommended.

**Back cushion 90 x 60 x 8 cm, latex filling:** heavy filling of latex and feathers – cushion nestles against the angled backrest when used without neck cushion.

**Armrest cushion 59 x 27 x 15 cm:** filled with a mix of feathers/down and ball fibre, sand-weighted.

**Neck cushion 70 x 17 x 15 cm:** filled with a mix of feathers/down and ball fibre, sand-weighted.

**Covers:** removable.

**Legs:** die-cast aluminium, polished or powder-coated.

**Glides:** non-slip.

**Accessory:** Sofa Tray made of steel, covered with split leather.

**Note:** the designations ‚left‘ and ‚right‘ refer to the perspective when viewing the sofa from the front.

**Note:** with the exception of neck and armrest cushions, all cushions are available in a tufted version.

**Note:** back cushions are not included with the sofa and must be ordered separately.

**Note:** cushions should be regularly shaken and plumped to retain their fullness and shape.

**Applications:** recommended for domestic use only.

# Suita

Antonio Citterio, 2010/2019

**vitra.**

Suita Sofa 3-Seater, back cushions: Classic

**Characteristics:**

- firm and soft upholstery
- Fabric and leather
- 3-Seater with 2 seat cushions and 2 back cushions

Suita Sofa 3-Seater, back cushions: pointed cushions

**Characteristics:**

- Soft upholstery
- Fabric and leather
- 3-Seater with 2 seat cushions and 5 back cushions

Suita Sofa 3-Seater, tufted

**Characteristics:**

- Soft upholstery
- Fabric, no leather
- 3-Seater with one one-piece seat cushion and 3 back cushions
- Daybed available

# Suita

Antonio Citterio, 2010/2019

## Suita

**Legs:** die-cast aluminium, polished or powder-coated.

**Body:** webbed metal frame with moulded polyurethane foam.

**Classic seat cushions, firm:** polyurethane foam and polyester fibre.

**Classic seat cushions, soft and tufted:** polyurethane foam core and chamber cushion overlay (filled with polyurethane foam lozenges, latex and a mix of goose feathers and down).

**Seat height:** 430 mm (315 mm with applied load, measured in accordance with EN 1335-1:2000).

**Classic back cushions, firm:** chamber cushions filled with polyurethane chips and feathers.

**Classic back cushions, soft:** chamber cushions filled with polyurethane foam cubes and feathers.

**Tufted back cushions:** chamber cushions filled with polyurethane foam cubes and ball fibres.

**Pointed cushions 40 x 40 cm and 40 x 60 cm:** filled with 100% feathers.

**Pointed cushions 60 x 60 cm and 60 x 80 cm:** filled with polyurethane foam lozenges and feathers.

**Bolsters:** filled with polyurethane foam lozenges and feathers.

**Armrest cushions:** latex and siliconised fibres.

**Covers:** removable.

**Glides:** non-slip.

**Head section:** moulded polyurethane foam with metal frame.

**Shelf:** aluminium profile, powder-coated die-cast zinc with linoleum inlay.

**Daybed:** metal frame with wooden panel, polyurethane foam, soft seat cushion.

**Covers:** removable.

**Glides:** non-slip.

**Ottoman, firm:** wooden panel, polyurethane foam, firm seat cushion.

**Ottoman, soft and tufted:** wooden panel, polyurethane foam core and chamber cushion overlay (filled with polyurethane foam lozenges, latex and a mix of goose feathers and down).

**Covers:** removable.

**Glides (for Suita Ottoman and Suita Club Armchair):** glides for carpet or felt glides for hard floors.

**Note:** the designations ‚left‘ and ‚right‘ refer to the perspective when viewing the sofa from the front.

**Note:** ripples and indentations from sitting (pressure marks) and partially visible outlines of the chamber cushions are characteristic of high-quality, soft upholstery in combination with a removable cover and can be more or less pronounced, depending on the selected cover material. To retain the fullness and shape of your sofa, cushions should be regularly shaken and plumped.

**Application:** soft upholstery version recommended for domestic use only.

# Vlinder Sofa

Hella Jongerius, 2018

All measurements are pursuant to EN 1335-1:2000  
More detailed information is found in the chapter 'Explanation of measurements'.

**Body frame:** wooden construction, with zigzag springs in the seat section and upholstery webbing in the backrest.

**Upholstery construction (body):** multilayer polyurethane foam in different levels of firmness, top layer made of viscoelastic foam, with polyester fleece.

**Cover:** chamber cushion structure, filled with a mix of goose feathers and down, as well as polyurethane and latex rods. Three-part design (two armrest sections, one seat-backrest section). Secured to sofa body with zip fasteners.

**Seat height with cover:** 400 mm (270 mm with applied load, measured in accordance with EN 1335-1:2000).

**Covers:** all covers are removable.

**Glides:** steel legs with felt glides

**Note:** designed only for private use. We recommend that the cover is regularly shaken.

# Metal Side Tables

## Ronan & Erwan Bouroullec, 2004

**Table top and base:** bent and welded sheet steel, galvanised, optional powder-coating with fine surface texture. The galvanised version is finished with an irregular surface polish.

**Glides:** polyamide.

**Applications:** galvanised Metal Side Tables, optionally powder-coated with a fine surface texture, are suitable for indoor and outdoor use. If used frequently outdoors, the galvanised version without powder coating can acquire a typical patina over time.

# Eames Wool Blanket

Charles & Ray Eames, 1947

**Material:** 100% Merino lambswool, produced in a jacquard weave.

**Characteristics:** Merino lambswool is a high-quality natural fibre obtained from the first shearing of Merino lambs. It is extremely light, fine and soft to the touch while also providing optimal warmth and thermal balance.

**Quality:** working with premium natural fibres requires considerable technical know-how and manual skill. For this reason, Vitra blankets are made by a German blanket manufacturer with over 100 years of experience in fabricating products from natural fibres. Their expert hand craftsmanship ensures the high-quality execution of the designs.

The chapter 'Quick Ship programme' lists products available with a fast delivery. Their article numbers begin with 'QS'.

Vitra delivers standard order quantities from stock. Items sent with standard packing are dispatched in the next scheduled shipment, involving no extra cost.

Items can be ordered in the Online Sales Configurator <https://salesconfigurator.vitra.com/> provided stocks are available, and the respective delivery times can be checked. However, if the daily quota is exhausted, no delivery times will be shown.

Other versions, special orders and stock orders are not available through the Quick Ship programme.

All products in the Quick Ship programme are identified in the price list by a lorry symbol.

**Office task chair, using the example of ID Soft**

Dimensions measured in accordance with EN 1335-1:2000

**A Seat height**

(measured at central vertical axis with applied weight load of 64 kg)

**B Seat depth**

(distance from front edge of seat to foremost point of the lumbar zone)

**C Seat width**

(measured horizontally to central vertical axis)

**D Height of top edge of backrest from seat surface**

(measured at central vertical axis with applied weight load of 64 kg)

**E Height of armrest from seat surface**

(measured at central vertical axis with applied weight load of 64 kg)

**F Height of backrest section****G Maximum base radius**

(including castors/glides)

**H Height****I Width of upper part****J Depth of upper part****Visitor chair, using the example of the Softshell Chair**

Dimensions measured in accordance with EN 1335-1:2000

**A Seat height**

(measured in back third of seat surface with applied weight load of 64 kg)

**B Seat depth**

(distance from front edge of seat to foremost point of the lumbar zone)

**C Seat width**

(measured in back third of seat surface with applied weight load of 64 kg)

**D Height of top edge of backrest from seat surface**

(measured at central vertical axis with applied weight load of 64 kg)

**E Height of armrest from seat surface**

(measured from back third of seat surface with applied weight load of 64 kg)

**H Height****I Width****J Depth**

## Lounge chairs and armchairs, using the example of the Eames Lounge Chair

**A Seat height**

(highest point of the seat in new condition, without applied load, measured along axis of symmetry)

**B Seat depth**

(distance from front edge of seat to foremost point of the lumbar zone)

**C Seat width**

(horizontal to central vertical axis with applied weight load of 64 kg)

**D Height of top edge of backrest from seat surface**

(measured at central vertical axis with applied weight load of 64 kg)

**E Height of armrest from seat surface**

(measured at central vertical axis with applied weight load of 64 kg)

**G Maximum base radius**

(including castors/glides)

**H Height****I Width of upper part****J Depth of upper part**

With upholstered furniture, dimensions can vary by up to approximately 30 mm due to varying firmness and a tolerance range for the convex profiles of foam padding.

If the seat height measured in accordance with EN 1335-1:2000 is listed, it has been measured in the rear third of the seat surface under a weight load of 64 kg.

## Sofas, using the example of the Suita Sofa

**A Seat height**

(highest point of the seat in new condition, without applied load)

**B Seat depth**

(distance from front edge of seat to foremost point of the lumbar zone)

**C Seat width****H Height****I Width of body****J Depth of body****K Height of shelf****L Width of base**

(distance from inner edge to inner edge)

**M Depth of base**

(distance from inner edge to inner edge)

With upholstered furniture, dimensions can vary by up to approximately 30 mm due to varying firmness and a tolerance range for the convex profiles of foam padding.

If the seat height measured in accordance with EN 1335-1:2000 is listed, it has been measured in the rear third of the seat surface under a weight load of 64 kg.

# Distribution rights

## Price list

All of the designs shown in this publication as well as the images themselves are legally protected. Vitra and the Vitra Design Museum have been authorised by the authors or their legal successors to exclusively manufacture, develop and distribute the products corresponding to these designs worldwide.

The following restrictions apply:

**Charles & Ray Eames** → Organic Chair, La Chaise, Eames Elephant, Plywood Mobile, Classic Trays, Paper Napkins, Eames Quotes Posters, Eames Wool Blankets and Miniatures Collection: Vitra holds the worldwide rights.

All other products: Vitra holds the rights in Europe and the Middle East.

The rights in the rest of the world are held by MillerKnoll.

**Alexander Girard** → Environmental Wall Hangings and Flower Table: Vitra holds the rights in Europe and the Middle East.

The rights in the rest of the world are held by MillerKnoll.

**George Nelson** → Clocks and Miniatures Collection: Vitra holds the worldwide rights.

All other products: Vitra holds the rights in Europe and the Middle East.

The rights in the rest of the world are held by MillerKnoll.

**Isamu Noguchi** → Akari Light Sculptures: Vitra holds the distribution rights in Europe and the Middle East as well as in Australia and New Zealand.

# General Terms and Conditions of Sale (Sweden) of Vitra International AG, Birsfelden, Switzerland

The following terms and conditions apply to all sales and deliveries of Vitra International AG ("Vitra" or "we") in the territory of Sweden unless otherwise agreed in writing. Any terms or other conditions contained in any purchase order or other form used by customer to order products that are different from, in addition to, or in any way inconsistent with Vitra's General Terms and Conditions of Sale are rejected and shall be of no force or effect.

## 1. Offers and conclusion of contract

Our offers and quotations are non-binding and subject to change. A binding contract is only concluded upon receipt of Vitra's written order confirmation. Orders confirmed by Vitra ("Confirmed Orders") are binding.

Illustrations and descriptions in our price lists, catalogues and any other documentations as well as any samples submitted are not binding for the execution of the goods. Changes in construction, variations in wood grains and minor deviations in design or colour shading are reserved.

## 2. Delivery terms

Deliveries are made DAP (Incoterms 2020) to the customer's delivery site in Sweden and are exclusive of installation, unless otherwise noted in any Confirmed Order. Partial deliveries may be made. Each partial delivery may be invoiced separately. Dispatch and choice of freight carrier are at Vitra's discretion.

Indications on delivery dates and times are approximate, unless we have specifically declared them to be binding in writing. Any modifications requested by the customer extend the indicated delivery times. When orders are made on call, the call must be made at least four weeks prior to the requested delivery date.

In the event that the customer is in default of acceptance, the goods will be stored at the customer's expense, with monthly storage charges amounting to at least 1% of the invoice value.

## 3. Transfer of risk

All risks of loss and damage shall pass to the customer at the time Vitra places the goods in the possession of a freight carrier or any other third party responsible for the delivery. Transport insurance is only taken out at the customer's request and expense.

## 4. Prices

Unless otherwise noted, prices are stated in SEK and exclusive of any VAT, customs duties and other public charges.

Prices are inclusive of dust-protective wrapping or any other standard packaging as determined by Vitra. Non-standard packaging materials are invoiced to the customer at cost.

Should the factors underlying the price formation (raw materials, transportation costs, collectively agreed wages, customs duties) increase prior to the delivery of the goods, Vitra shall be entitled to charge the customer the corresponding price increase in addition to the Confirmed Order price.

## 5. Payments

Invoices are payable within 30 days (net) from the invoice date, unless otherwise agreed. Payment is considered received as soon as and to the extent it has been credited to our bank account.

Vitra is, at its sole discretion, entitled to request a partial or full prepayment at any time. Should payment be delayed, interest in arrears at a rate of 5% shall be automatically charged to the customer. In the event that customer's payment is delayed for more than seven (7) calendar days, or if there are justified doubts as to the customer's solvency, we are entitled to (i) revoke all credit, (ii) reject any further orders of the customer and (iii) withdraw from or suspend any as yet unfulfilled part of purchase contracts already concluded with the customer, in each case without incurring any liability to the customer.

The customer may only set off counterclaims against our claims if customer's counterclaims are uncontested or established as final by a competent court of law. In particular, the customer is not permitted to withhold payment or make deductions to invoiced amounts in the event of complaints relating to the goods.

## 6. Retention of title

Title to and ownership of goods supplied by us shall remain vested in Vitra and shall not pass to the customer until the purchase price has been paid by the customer in full. Customer shall be obliged to store relevant goods in such a way as to enable them to be identified as our property and is prohibited from pledging or using the retained goods as a security without our written consent. Until title to the goods passes, upon our request, customer must facilitate our repossession of the goods and we or our agents shall be entitled at any time to enter the property in which the relevant goods are stored. In case of repossession, we may claim rent and damages for potential use of the goods, plus legal costs and transportation costs. Further claims for improper use of the goods remain reserved. Irrespective of whether title to the goods remains vested in Vitra, risk shall pass to the customer in accordance with Sec. 4.

As a precautionary measure, the customer assigns to Vitra in advance all rights arising out of the potential further sale of goods to which we retained title in accordance with the foregoing. Upon our request, the customer must inform the purchasers of relevant goods about the assignment of rights and hand over the necessary documentation to us.

As long as the customer meets his commitments towards Vitra, the customer may dispose of the unpaid goods according to normal business practice and collect the assigned receivables.

## 7. Warranty and defects

Vitra warrants that the goods are free from defects in material and workmanship for two years from the date of delivery. All other warranties are expressly excluded.

Vitra's warranty does not apply to defects, damage, failure or loss resulting from (i) improper use or incorrect handling or modification of the goods (e.g. treatment of fabrics with unsuitable chemical agents), (ii) non-compliance with the instructions for use or exposure to unsuitable environmental conditions (climate, humidity, chemicals, direct sunlight), (iii) maintenance by unauthorized persons, (iv) normal wear and tear (e.g. regarding castors, surfaces) and (v) the use of customer owned materials (COM). Vitra is not responsible for damage to goods which occurs in transit. Damages in transit shall be notified to the responsible carrier in writing immediately after receipt of the goods and Vitra shall be informed accordingly.

Defects in the goods supplied, discrepancies in quantities supplied or incorrect delivery must be notified to Vitra within eight (8) calendar days from receipt of the goods. In case of hidden defects, the customer shall notify Vitra within five (5) calendar days after having detected such defect. Otherwise, the customer shall lose its claims with regard to these defects.

The customer has to check the delivered goods immediately upon receipt. If any goods prove to be defective, we will, at our own discretion, either rectify the defect or deliver a comparable replacement product (or replacement product part). If repair or replacement is commercially impracticable, we may grant to the customer a refund or price reduction for the defective goods. There shall be no other right of claim against us. Delivery of a replacement product does not result in a renewal or extension of the warranty period.

Vitra's liability is strictly limited to the aforementioned obligations. Vitra shall bear no liability for any indirect or consequential loss, loss of profits or loss of business of customer howsoever arising. No limitation applies to Vitra's liability for death or personal injury, damages caused by Vitra's willful misconduct or gross negligence or in case of mandatory product liability.

## 8. Force majeure

We shall not be responsible or liable for any failure or delay in the performance of our obligations caused by, directly or indirectly, forces beyond our control or the control of our suppliers, including, without limitation, strikes, breakdowns, work stoppages, accidents, acts of war or terrorism, civil or military disturbances, catastrophes and interruptions, epidemics and pandemics (including Covid-19), loss or malfunctions of utilities, communications or computer (software and hardware) services.

## 9. Data protection

We only capture, process or use personal data in accordance with applicable data protection law provisions. Details are set out in our Privacy Policy, which can be accessed at <https://www.vitra.com/cpt> or requested from us at any time.

## 10. Governing law and jurisdiction

The legal relationship between Vitra and the customer shall be governed by Swiss law, excluding the UN Convention on Contracts for the International Sale of Goods (CISG). The place of jurisdiction shall be Muttenz, Switzerland. However, we shall be entitled to sue the customer at his residence or seat of company.

## 11. Severability

In case any provision in these General Terms and Conditions of Sale shall be invalid or unenforceable, the validity and enforceability of the remaining provisions shall not in any way be affected or impaired thereby and such provision shall be ineffective only to the extent of such invalidity or unenforceability.

Color & Material Library  
2023

english

# Colour & Material Library

**vitra.**

The Vitra Colour & Material Library comprises a variety of textiles and leathers, but also features solid materials, including the colours and textures of plastics, metals, woods and other materials. Together, these form a system offering countless possible combinations with a coherence that make it easy for architects, interior designers or private clients to define a lively interior collage with a strong identity.

*'The Vitra Colour & Material Library encourages creative freedom and fires the imagination – not by making everything possible, but by providing a clear display of options.'*  
Hella Jongerius.

## Hella Jongerius

The Dutch designer Hella Jongerius lives and works in Berlin. She founded the Jongeriuslab studio in 1993. For Vitra, the Dutch designer has developed distinctive pieces such as the Polder Sofa and the East River Chair. Jongerius has consistently addressed the significance of colours and surfaces in contemporary design in her work with textiles, ceramics and furniture. She has been the Art Director for colours and materials at Vitra for

many years and developed the Vitra Colour & Material Library – a system that enables the versatile combination of different materials and colours throughout the extensive Vitra product collection.

© Studio Likeness

## Colour Worlds

The aim of this collaboration is to create a unique realm of Vitra colours and materials that augment contemporary designs and renew classic pieces in the collection. Her colour concept for Vitra organises all colours in four contrasting colour worlds. The greens, the reds, the lights and the darks suit both home and office. The system encompasses the entire spectrum of colours,

while the different colour worlds classify their specific purpose. The Vitra Colour and Material Library is no advice kit. It is to be used as a tool, both within the design and production process as well as outside of the company grounds.

### GREENS

After living in a green environment for thousands of years, distinguishing prey or edible plants, our eyes' colour receptors have become most sensitive to the greens. A biological evolutionary process now enables us to differentiate many shades.

### DARKS

Retreating and absorbing, the darks are more distant and calm. They take in light and hold warmth. They are shadow colours – the darker a colour, the further it seems to be away from its observer.

### LIGHTS

The light colours, which we call 'lights', accentuate, reflect and project other colours. They remind us of an empty sheet of paper, untouched snow and are a Western symbol of purity.

### REDS

Red hues appear vibrant, dynamic and more immediate than other colours. Along with oranges and yellows, they need light to unfold their true beauty. Red is the first colour that babies acknowledge.

## Bridge Colour Palettes

Bridge colours in the Vitra Colour and Material Library offer a link between various contrasting objects and materials. Every bridge colour appears in several materials and textiles and results in a corresponding palette – a range of hues based on one single tone that vary slightly in appearance, depending on the material's characteristics. Every new colour is designed to accentuate the respective material's texture and surface qualities. Because whether a surface is glossy, translucent or rough, and how the surfaces react to shadow play and reflections, determines the colour's hue within a bridge colour palette.

The brick colour looks darker on a matt plastic than in an Aura fabric because the textile's construction is based on a cluster of yarns and binding that exhibit a satiny complexion. The customer can choose from a range of colour options and materials within each bridge colour palette to create a link between various pieces of furniture for tone-on-tone settings.

## Duotones

A duotone weave, just like an impressionist painting, can demonstrate how the perception of colours is an activity. Participation is necessary in order to actually see the colour emerge from the thick and loose yarns or brushstrokes. The world of industrial production tends to exclude such activity, as it excludes instability. Yet it is precisely this instability that brings colours to life and makes us gaze at them.

The duotone concept sets up a colour conversation between the warp and the weft. The warp is typically in a darker colour than the weft yarn, which gives an optical depth to the weave. The interweaving of two different colours unites the realm of office spaces with the softness and intimacy of home. A colour composed of layers keeps a colour fascinating. You have to blink twice. Is that surface red? Or is it grey? It does not look the same in the morning as it does in the evening or in winter and summer.

## Designer Libraries

Within the Vitra Colour & Material Library each designer developed it's own colour palette based on his own aesthetics, the design approach and the furniture shape. The library guarantees that almost all colours, surfaces and textiles are easy to combine or offers matching colour partners – even across the different Designers libraries. In addition the so called signature colours make the individual palettes unique for each designer. Signature colours are shades that can only be used by one designer. They are sometimes even limited to one product only. Usually, design-

ers themselves will suggest a signature colour because they like that specific shade or have a particular role in mind for this colour. When re-introducing classic designs, a decision will be made in close cooperation with Hella Jongerius and the respective designer's family or heirs.

### Aura

# Checker

Home, F200

Alexander Girard developed the textile pattern 'Checker' in 1965 as part of his legendary redesign of the corporate image for Braniff International Airlines. The checkerboard design is a prime illustration of Girard's radical break from the conventional low-key aesthetic that characterised the sector at that time. The soft double weave fabric, with a high percentage of cotton, demonstrates exceptional purity of colour and its geometric pattern lends a striking note to any environment.

Material	77% cotton, 23% polyester
Weight	467 g/m <sup>2</sup> (13.8 oz/y <sup>2</sup> )
Abrasion resistance	20,000 Martindale
Fastness to light	Type 6

# Tonus

## Home, F100

Tonus is a classic woollen cloth in a plain weave with an appealingly soft and flexible feel. The deep intensity of Tonus colours – ranging from warm and earthy golds that evoke oriental myths and spices to cool nordic hues in the aquamarine spectrum – lend a unique richness to the fabric.

Tonus is available in 14 colours.

Material	90% new wool, 10% helanca
Weight	490 g/m <sup>2</sup> (14.5 oz/y <sup>2</sup> )
Width	140 cm (55")
Abrasion resistance	100,000 Martindale
Fastness to light	Type 5
Pilling	Grade 3
Fastness to rubbing	Grade 3-4 dry and wet

# Tress

Home/Office, F80

**vitra.**

Tress is a flat woven fabric with a lively appearance that derives from the contrast between its even structure and the natural melange of colours. The combination of yarns with varied hues creates a harmonious and yet vibrant look. Thanks to its high wool content, Tress is a durable, easy-care material with a home-like aesthetic.

Tress is available in 22 colours.

Material	8% polyamide, 73% new wool, 19% polyester
Weight	310 g/m <sup>2</sup> (9.1 oz/y <sup>2</sup> )
Width	142 cm +/- 2 cm (56")

Kvadrat fabrics are a further addition to Vitra's collection of durable, high-quality textiles. This expanded range makes it even easier to find the ideal upholstery fabric for a selected piece of Vitra furniture. The colours of the Kvadrat fabrics have been carefully chosen to match other Vitra surface finishes, offering a multitude of harmonious combinations. The complete colour palette of Kvadrat fabrics can be viewed at [Kvadrat.dk](https://www.kvadrat.dk).

**Canvas 2, F60**

This textile has a pronounced structure, making it especially suited for large surfaces.

The colours owe their exceptional richness to the use of up to six differently hued yarns per colour.

Hard-wearing and durable.

Canvas 2 is available in 45 colours.

*Material*

10% nylon, 90% new wool

**Divina 3, F120**

Piece-dyed, supple fabric with a directionless, smooth and uniform surface. The regular surface enhances the purity of the colours.

Hard-wearing and durable.

Divina 3 is available in 56 colours.

*Material*

100% new wool

**Divina MD**, F120

Supple material-dyed fabric with a smooth, directionless and consistent surface. Its full-bodied and subtle structure brings the nuanced range of colours to life and creates a vibrant appearance. Hard-wearing and durable.

## Material

100% new wool

Divina MD is available in 27 colours.

---

**Divina Melange 3**, F120

Piece-dyed, supple fabric with a directionless, smooth and uniform surface. The lively melange effect is created by mixing undyed and black-dyed woollen yarns and then piece-dyeing after the weaving process. This creates a unique, dynamic look. Hard-wearing and durable.

## Material

100% new wool

Divina Melange 3 is available in 38 colours.

---

**Hallingdal 65**, F140

Wool gives this material excellent durability and flexibility, while viscose enhances the brilliance and depth of the colours. A classic, timeless fabric in a wide selection of hues. Hard-wearing and durable.

## Material

70% new wool, 30% rayon

Hallingdal 65 is available in 58 colours.

---

**Steelcut Trio 3**, F100

The innovative weave of this fabric creates a complex three-dimensional surface, and the combination of three different hues adds to its vibrant appearance.

Hard-wearing and durable.

Steelcut Trio 3 is available in 54 colours.

*Material*

10% nylon, 90% new wool

**Remix 3**, F80

The tight plain weave creates a subtle, minimalist surface texture. Each hue comprises a combination of up to six differently coloured yarns, yielding exceptional depth of colour.

Hard-wearing and durable.

Remix 3 is available in 72 colours.

*Material*

10% nylon, 90% new wool

**Tonus 4**, F100

Thanks to the structural properties of Helanca yarn, Tonus is elastic and well suited for modern organic furniture. It brings colours to life in vibrant, precise fashion.

Hard-wearing and durable.

Tonus 4 is available in 47 colours.

*Material*

90% new wool, 10% helanca

# Leather Natural F

## Home, L6o

Leather Natural F is a very soft cowhide leather with an untreated grain. It is porous, breathable and acquires a lively patina through use. It is processed with a tanning agent extracted from olive tree leaves (a waste product of the olive harvest), and any chemicals used are harmless and applied in the smallest possible amounts.

Material

Aniline nappa leather with a natural open-pore grain, vegetable tanned

Fastness to light

Type 3

Thickness

1.1–1.3 mm

This sustainable aniline leather exists in a choice of 4 colours.

		Material	Thickness
L10	Leather Liso	Split leather	1.8–2.0 mm
L20	Leather Forte (deco)	Split leather with decorative finish	1.8–2.0 mm
	Leather	Robust cowhide with a distinctive, even grain	1.1–1.3 mm
L50	Leather Premium F	Semi-aniline nappa leather with a very soft and supple feel, vegetable tanned	1.1–1.3 mm
L60	Leather Natural F	Aniline nappa leather with a natural open-pore grain, vegetable tanned	1.1–1.3 mm

Vitra uses a variety of high-quality plastics for its furniture products, depending on the desired characteristics. Special additives are employed in the manufacture of outdoor products to retard the fading of colours caused by UV radiation.

When it comes to plastics, it is always important to consider whether newer, more environmentally sensible alternatives are available. For this reason, four different plastics have been used in the production of the Panton Chair since 1967. The plastics most often used by Vitra are polypropylene and polymide, both of which are recyclable thermoplastics.

# Recycled plastic

Depending on the material properties required of a product, Vitra chooses different types of plastic for the manufacture of its furniture. This always raises the issue of whether new, more ecological alternatives are available, which has led to the development of various recycled plastics. Depending on the type of product and its requirements, Vitra utilises high-quality recycling materials that stem from recyclable household waste, especially used packaging, or industrial waste.

With plastic obtained from recycled household waste, the natural shade of the processed material is dark grey (22 dark grey RE), interspersed with tiny specks of pigment. All other colours are obtained with artificial dye – and yet due to its randomly variable composition each batch of processed waste material has a different base shade, which can result in colour nuances in the dyed end products.

Fibreglass is a very robust and durable fibre composite made of polyester resin and glass fibres. The glass fibres visible in the plastic lend it a lively surface texture with a lustrous reflection and pleasant tactile qualities. This so-called 'fibreprint' may not only vary between different products but can also be a distinguishing characteristic of individual models of the same product. These tiny irregularities and distinctive features are what make each object a unique piece.

When manufacturing fibreglass, Vitra uses materials from Central Europe to avoid long transport distances.

# Polyurethane

Polyurethane (PU) is a synthetic foam material used in a number of Vitra products. The cellular structure of PU foams can be varied to meet different requirements, ranging from flexible, elastic materials to solid, rigid components.

Vitra most frequently uses aluminium and steel for metal components. Since 94% less energy is required to produce recycled aluminium in comparison to primary aluminium, Vitra utilises aluminium consisting of 95% recycled material whenever possible.

Depending on the product, metal surfaces are either powder-coated, chrome-plated, polished, galvanised or lacquered. A smooth or textured powder-coated finish provides colour and surface protection.

Wood is characterised by variations in grain, texture and colour, making each wooden furnishing a unique object. Vitra has strict quality standards for the woods selected for its products and uses wood from several trees for the manufacture of a single furniture object made of solid wood. As a result, every piece has a lively and distinctive appearance.

The solid woods used by Vitra are mainly sourced in Europe and have an oiled or lacquered finish, depending on their application. Exposure to light will alter the colour of wood over time.

Complex industrial methods are used to produce sheets of wood veneer, which are further processed by hand. In most cases, wood from a single tree is utilised for a piece of furniture to ensure the uniform appearance of all surfaces.

With only two exceptions, Vitra exclusively purchases veneers with a certificate of sustainability from European producers. Vitra's veneers are finished with a protective lacquer; exposure to light will alter the colour over time.

Wooden Side Tables

Medium-density fibreboard, also known as MDF board, consists primarily of debarked coniferous wood broken down into fine fibres. MDF is a wood-based material with a uniform structure both lengthwise and crosswise. Its edges are hard and smooth,

making it possible to cut clean profiles. Vitra is an industry leader in the development and application of powder coating methods for MDF. Powder coating produces an even, robust surface finish with seamless edges, making it ideal for constructions with cut-outs or for complex corner joints.

High-pressure laminate, abbreviated as HPL, is composed of layers of paper that are impregnated with phenolic and melamine resins and bonded together with a protective overlay under high pressure and heat, and applied to a substrate. The resulting surfaces are simple to clean and maintain, and they are also lightfast, odorless and resistant to alcohol, organic solvents and water.

# Linoleum

Linoleum is derived from natural and renewable raw materials. This pliant, high-quality substance has a pleasant touch, and fingerprints are almost imperceptible on its surface. It is easy to care for and collects very little dust in comparison to other surface materials, thanks to its anti-static characteristics.

Suita  
Tray inlay

01  
pebble

02  
charcoal

# Bonded leather

Bonded leather is made up of remnants from Vitra furniture production: leather fibres and offcuts are shredded and bound with vegetable tanning agents, natural rubber, fats and water, then pressed to extract water and dried. Bonded leather allows a judicious use of resources as it is processed from small scraps that would otherwise have no further use. It can be cleaned with a damp cloth.

Bonded leather is available in 5 colours (variants in natural hues with protective sealant; colour variants with coated finish).

Whenever possible, the marble used by Vitra is a premium quality Carrara marble. Since marble is a natural material, every marble table top has its own unique colour and texture. Vitra treats the marble surfaces with a high-quality sealer to protect them from water, oil, grease and moisture. This sealer penetrates deep into the stone, while still allowing it to breathe.

Unlike the effect of varnish sealing, the stone retains its natural appearance and particularly its colour. Even with this treatment, marble remains a relatively sensitive surface that develops a patina with use.

---

marble Carrara

# Glass

Vitra currently uses so-called float glass. This is manufactured by feeding molten glass into a bath of molten tin, where it forms a floating ribbon that then cools. Special heat treatment renders the glass shock and impact resistant (single-pane safety glass according to EN 12150-1).

Painting the underside in a variety of colours, along with a satin surface finish, gives the material a fresh and unusual appearance.

---

# Cork

Cork, a natural rigid foam harvested from the bark of the cork oak, is distinguished by its light weight and pleasant tactile qualities. The robust, fire-resistant material varies in both colour and texture, so that every piece of furniture or accessory made from cork is a unique, one-of-a-kind object.

---

## Cork Family

•  
untreated cork

---

# Corrugated Cardboard

Derived from a renewable resource, this natural material is layered and finished with strong side edges to make a small number of Vitra products. In this form, it maintains a surprising degree of stability and rigidity.

---

## Wiggle Side Chair & Wiggle Stool

•  
natural

•

---

The polyester fleece material used by Vitra is thermoformed by the application of heat and pressure and is 100% recyclable. It has a slightly fleecy texture and is somewhat pliable without losing its shape. Polyester fleece has sound-proofing qualities and its relatively fine-pored surface prevents the easy penetration of liquids.
