

StandUp Adjustable Desk

A manually height adjustable desk in a convenient size making it very easy-to-position. You don't need to take electrical outlets into consideration and there are no cables on the floor: The desk is suitable for both home offices and conventional workplaces. You raise and lower the desk with a gas spring that is controlled by a lever on the side. The lowest height is 73 cm, the highest height is 117 cm.

The table is manufactured in Sweden and designed by Dan Ihreborn.
